“Commencement Date” means the date stipulated by GSCDCL for commencement of the Cycle Sharing System by the Service Provider under the Service Provider Agreement and shall not later than 12 months from the date of signing of Service Provider Agreement. The Commencement Date will be the first day of the first Payment Period.

“Commercial Operations Date” is the actual date on which the Cycle Sharing System will begin to serve users under the Service Contract.

“Consortium” shall mean an association of two (2) or three (3) entities / firms formed especially for the purpose of bidding for this RFP.

“Contract” or Service Contract” shall mean the agreement entered among the GSCDCL and Successful Bidder.

“Contract Period” is the time from the date of start of Cycle Sharing System to the last date of validity of the Service Provider Agreement.

“Control Centre” means the central facility of the Cycle Sharing System used mainly for service monitoring, operations control, and customer service. It is the location for collecting, storing, consolidating, processing the information obtained from various elements of the Cycle Sharing System as well as from users, agents, employees, and Service Provider s.

“Cycle Sharing System” or “System” means a personal public transport system consisting of a network of Cycles and Stations in which a user can check out a Cycle at any Station using an RFID-based smart card or key (no cash/ debit card/ credit card payments at the Station) and return the Cycle to any other Docking Station and in which information is tracked in real-time using an information technology system. It refers to the hardware, software, and premises

associated with this RFP for Gwalior that is being implemented by GSCDCL in various phases, unless otherwise specified.

“Cycle” means a bicycle that meets the Technical Specifications described in this RFP and is to be procured, maintained, and operated as part of the Cycle Sharing System by the Service Provider in accordance with the terms of this RFP.

“Depot” is the area equipped with facilities and equipment for general management, repair, maintenance, cleaning, and parking of Cycles and Stations for the Cycle Sharing System. The depot may be included with the Control Centre or at a different location.

“Dock”/ Locking bar means a physical unit for locking a single Cycle at a Station when the Cycle is not in use.

“Fleet” means the number of Cycles that are available for use in the Cycle Sharing System in accordance with the provisions of this Document. The Fleet on a given day is the sum of all Cycles that are in a good condition of repair and are available for commercial service for at least 14 hours during the respective 24-hour period.

“GSCDCL” means Gwalior SMART City Development Corporation Ltd.

“Membership” means an agreement between the Service Provider and a customer for a specified period of time in which the customer gains access to the Cycle Sharing System.

“Project Asset” means Stations, Cycles, the Control Centre, and other facilities created as part of the Cycle Sharing System.

“Redistribution” is the activity of a Cycle being moved by the Service Provider (normally from Station to Station or Station to depot) using a redistribution vehicle.

“RFP” and/”RFP Document” means Request for Proposals and refers to this Document.

“Ride” is a trip taken by a registered customer of the Cycle Sharing System in which a Cycle is checked out from one Station and returned to another Station.

“Service Certificate” means a document that accredits compliance by the Service Provider with all requirements established in the contract to allow the Cycle Sharing System to begin operations.

“Service Provider” shall mean the Bidder who won the Bidding process of this RFP and to whom a Letter of Acceptance is issued by GSCDCL and Service Provider Agreement to operate the Cycle Sharing System is entered with.

“Service Provider Agreement” or simply “Provider Agreement” means the Agreement including, without limitation, any and all Annexures thereto which will be entered into between GSCDCL and the Service Provider through which GSCDCL will grant the rights to the Service Provider to install and operate the Gwalior Cycle Sharing System during the period of the Agreement.

“Service Provider Facilities” means the facilities and equipment produced or developed by the Service Provider that are required for the due implementation of this Contract, including control center, Stations and depots.

“Standby Cycles” means the number of additional Cycles that the Service Provider shall procure and maintain to ensure that the size of the operational Fleet is equal to or greater than that of the Authorized Fleet at all times.

“Station/ Docking Station” means a unit with a user terminal and docking positions where users can rent and return Cycles and avail of system information that meets the Technical Specifications described in this Agreement.

“Training and Testing Period” is the period preceding the Commercial Operations Date during Which Service Provider shall demonstrate the functionality of the Cycle Sharing system.

“Vandalism” means destruction of or damage to a Project Asset deliberately

Any other term(s), not defined herein above but defined elsewhere in this RFP shall have the meaning(s) ascribed to such term(s) therein and shall be deemed to have been included in this Section.

## **1. Introduction**

GSCDCL plans to introduce a Cycle Sharing System to provide a low-cost, environment friendly mobility option to city residents. Cycle sharing is a flexible system of personalized public transport. Cycles are available in a closely spaced network of semi-automated Stations. Users can check out Cycles at one Station and return them to any other Station in the network.

Cycle sharing is a key element in a city’s strategy to expand the use of sustainable transport modes. Cycle sharing is expected to boost the use of public transport. The system will be integrated with the other systems through the location of its Stations and the ITS system. By encouraging a shift to sustainable modes, the Cycle Sharing System will reduce dependency on automobiles, reduce traffic congestion, vehicle emissions, and demand for motor vehicle parking. In addition, the system will expand the health and wellness benefits of bicycle transport to new users. Finally, the system will support the transformation of streets to become environments where pedestrians and bicyclists feel safe and comfortable.

The Stations would cover the “catchment area” of the ABD area. This will ensure that the first and last mile connectivity to people living in the catchment area is provided for. Importance will be given to place Stations near important commercial, cultural, educational, administrative, and residential and tourist attraction points in the catchment area.

A Hybrid System is proposed for Public Bike Sharing. The Stations will be manned by Station attendants; however the operations of each Station are communicated to the Central control system by the Station attendants using card verification devices. The central control system collects data from each Station for efficient planning and operation of the system. This data is used to make decisions on redistribution of Cycles around Stations during the hours of operations. **The Cycle sharing system will also be integrated with ITS system to aid the multimodal integration.**

The Cycle Sharing System proposed will have **500 cycles** spread over **minimum 50 Stations** across

the city. The project will be implemented by the service provider within a time period of 12 months of signing the bid. However, number of Cycles or/and Stations can be increased with mutual consent of GSCDCL and service provider but the cost of the same shall be borne by the Service Provider.

GSCDCL hereby requests interested Parties to respond to this call for Request for Proposal for the development, design, procurement, installation, operation and maintenance of the Cycle Sharing System in the city of Gwalior, Madhya Pradesh. The terms of payments and revenue would be as detailed below

- a. **The Capital Cost of the project, which is determined by the Service Provider's offer in the capital bid component of the competitive bidding process, will be paid to the Service Provider in installments** and will be based on timelines that is agreed upon by GSCDCL. The Capital bid should be capped at **Rs. 2.5 Crores**. That is the capital bid amount should be less than or equal to Rs. 2.5 Crores.
  - b. The **operations contract** will be issued to the Service Provider for a period of 5 years. During this period, the Service Provider is entitled to:
    - **Fare box revenue:** Revenue earned from sale of memberships and rental income earned from renting of Cycles to the users.
    - **Advertisement Revenue/ Sponsorship Contract Revenue:** The Service Provider will be given the rights to sell advertisement space on the system. This includes advertisement space on Cycles and Station infrastructure like panels and docks at the Station. Alternatively, the Service Provider may also sell sponsorship contract to the system to a single entity. The sponsorship contract will include not only space on the system but also naming rights to the system.
    - **Parking Revenue:** At the Stations of the system, if excess space available after providing the requisite space for the Cycle, docks and other Station infrastructure can be used to provide parking facility for 2 wheelers (motorised and non- motorised). The Service Provider is entitled to the parking revenue made from this Park and Ride facility.Station.
    - **Annual Cycling Event:** The Service Provider will be given the rights to conduct an annual cycling event in the city. The profits made from this event will also be used to run the Public Bicycle Sharing system
    - **CSR Funding:** The Service provider is also given the rights to tap into CSR funding of private organizations to fund the operations of the system.
    - **Support from GSCDCL:** Tthe operating cost quoted by the Service Provider will be reimbursed by GSCDCL, every three months, given that the service level benchmarks that are defined by GSCDCL are met. The Service level benchmark is mentioned in **Section 6.2**
- 6.2.** The Operating cost is a predetermined fixed amount of money which is the Service Provider's offer during the competitive bidding process. The bid amount by the Bidder should be inclusive of service charges and taxes.
- The location for the Cycle Stations(Annexure K) will be determined by GSCDCL in consultation with the selected Service Provider. However decision of GSCDCL will final and binding upon Service Provider.
  - **Utility Shifting:** If any Utility Shifting is required for Stations, then cost of same shall be borne by the Service Provider.
  - **Right of First Refusal:** After completion of Term of Agreement when new PBS Tender is floated, the existing Servicer provider would be given the **Right of First Refusal** upon matching the highest bid received by GSCDCL.

## ***2. RFP Data Sheet & Timelines***

As per the NIT of RFP

### **3. Scope of work**

The contract will be for design, procurement, installation, operation and Maintenance of the Cycle Sharing System in the city of Gwalior, Madhya Pradesh. Service provider need to provide integrated and innovative solutions for the Gwalior Cycle Sharing System, including all the hardware, software and system solutions along with operation of the system.

**The Service contract will be granted for a period of 5 years, at the end of the 5 year period, if GSCDCL is satisfied with the service provided by the Service Provider.**

The Service Provider's Scope of work includes:

#### **3.1. Planning and installation**

##### **3.1.1. System Planning**

A list of Station location and size of each Station will be proposed by GSCDCL. The Service Provider is required to review these Stations and give their recommendations on the same which will be duly considered by GSCDCL.

The Service Provider shall conduct activities not limited to:

- Evaluating the Station locations and sizes as proposed by GSCDCL
- Conduct public outreach and location surveys to evaluate demand across the city
- Make recommendations on location and size of each Station on the system. The final decision on the Station location and size rests with GSCDCL.

##### **3.1.2. Station Installation Plans**

The Service Provider will also conduct site surveys and provide detailed drawings for each Station showing the layout and positioning of the Station relative to existing street elements. The Service Provider will submit the proposed Station positions and layouts to GSCDCL for approval. The GSCDCL will clear the approved site and create a paved, level surface on which the Service Provider may install the Station. The system installation will be divided into 3 phases:

#### **Phase 1: On ground Testing**

A period of 1 week, where the components and systems are tried and tested by the Service Provider. During this period, the system need not be open to the general public. This period is used to ensure that once the system is launched, it will run without any operational glitches.

#### **Phase 2: User Generation Campaign**

Period of at least two weeks before the formal launch of the system. The Service Provider is allowed to start the user generation campaign as soon as the system is able to run efficiently. During this period the Service Provider should actively try to engage the people of Gwalior in understanding the operations of a PBS and also generate memberships to the system.

#### **Phase 3: Formal Launch of the system**

Within 12 months of the date of signing the Service Contract with GSCDCL, the Service Provider should formally launch the system. The contract period of the system begins on the day of the Formal launch of the system.

The schedule of 3 phases of installation is given below:

Phase	Time Line	Total Cycles	Total Stations
Phase 1: On ground testing	One week before Phase 3	~500	~50 (pre-determined number of total Stations)
Phase 2: User Generation Campaign	At least 2 weeks before Phase 2	~500	~50 (pre-determined number of total Stations)
Phase 3: Formal Launch	12 months after signing of Service Contract/ 1 month after launch of on ground testing (whichever is earliest)	~500	~50 (pre-determined number of total Stations)

### **3.2. Cycles**

#### **3.2.1. Technical standards**

- Technical specifications for the Cycles should at least meet the “Minimum Technical Standards” as given in Section 4.
- Procure such equipment manufactured not earlier than six (6) months before the date of signing of the Service Provider Agreement between GSCDCL and the Service Provider. The equipment shall not have been put to commercial use anywhere previous to the Commencement of Operations.

The Service Provider will present prototype Cycles for the Cycle Sharing System to GSCDCL for inspection. GSCDCL will have the right to review all Station hardware and software to ensure they meet all the technical criteria as specified. A prototype which may have features over and above the prescribed minimum standards will also be accepted by GSCDCL.

Should GSCDCL find any discrepancy between the prototype and the technical specifications, and then the Service Provider will have 30 days to propose a solution. The final designs will be subject to approval from GSCDCL. After receiving approval on the final design, the Service Provider may proceed to manufacture/ acquire the rest of the Cycles and Stations.

The Service Provider will also make suggestions on the colours and branding of the Cycles and Stations. These recommendations will be duly considered by GSCDCL. The final decision rests on GSCDCL and no additional branding components of any kind may be added to this design by the Service Provider.

#### **3.2.2. Number of Cycles- Fleet**

- Procure Cycles as per the Authorized Fleet size set by GSCDCL- 500 Cycles. Each of which shall comply with the technical standards as specified in Annex A.
- Procure and maintain Standby Cycles to ensure that the operational Fleet size remains above the Authorized Fleet.

- The authorized fleet will be provided and maintained by the Service Provider as per the timelines agreed.

A review of the Authorized size of the system will be triggered at any point the average number of rides in the system crosses the condition given below:

- If  $r / f > 6$ , the Authorized Fleet size can be increased by an increment specified by GSCDCL within 60 days of the end of the previous payment period.
- If  $r / f \leq 6$ , the Authorized Fleet will remain the same.

Where,

$r'$  is the average number of Rides during the previous 30 days and  
 $F'$  is the Authorized Fleet during the previous 30 days.

In general, the incremental change in fleet size will be at least 100 Cycles and or 5 Stations for any given revision in the Authorized Fleet but the decision can be made by GSCDCL on an ad hoc basis depending on the need/ demand.

### **3.3. Stations**

#### **3.3.1. Technical Specifications**

Technical specifications for the Station specific hardware and software components of the Cycle Sharing system should at least meet the “Minimum Technical Standards” as given in Section 4.

Procure such equipment manufactured not earlier than six (6) months before the date of signing of the Service Provider Agreement between GSCDCL and the Service Provider. The equipment shall not have been put to commercial use anywhere previous to the Commencement of Operations.

The Service Provider will present prototype Station for the Cycle Sharing System to GSCDCL for inspection. GSCDCL will have the right to review all Station hardware and software to ensure they meet all the technical criteria as specified. A prototype which may have features over and above the prescribed minimum standards will be accepted by GSCDCL.

Should GSCDCL find any discrepancy between the prototype and the technical specifications, and then the Service Provider will have 30 days to propose a solution. The final designs will be subject to approval from GSCDCL. After receiving approval on the final design, the Service Provider may proceed to manufacture/ acquire the rest of the Cycles and Stations.

The Service Provider will also make suggestions on the colours and branding of the Cycles and Stations. These recommendations will be duly considered by GSCDCL. The final decision rests on GSCDCL and no additional branding components of any kind may be added to this design by the Service Provider.

#### **3.3.2. Minimum Hours of Operation**

- The system will run for a period of at least 14 hours every day.
- If the Service Provider decides to operate for 16 hours, the hours of operations should be 6:00 am to 8:00 pm in winter & 4:00 am to 10:00 pm during summer.
- If the Service Provider decides to expand the number of operating hours beyond 16 hours, then it is mandatory that the time period 6 am to 8 pm falls within the operating

hours of the system

If the Service Provider has any suggestions on change in time of operations, such a request will be put forth to GSCDCL, who will have the final authority to decide.

### 3.3.3. **Number of Stations**

Minimum 50 numbers of Stations(Annexure K) is to be installed by the Service Provider. Each Station should comply with the technical standards as specified in Annex A. However if Service Provider wants to increase the number of Station, same can be done at the cost of Service Provider and a written approval from GSCDCL

- The system proposed by The Service Provider will install Stations as per the time lines.
- The number of units required for some of the essential Station components/ infrastructure are detailed below in sections 3.3.4 to 3.3.5.

### 3.3.4. **Number of Docks/ Locking posts**

The number of docks at each Station should be more than the number of authorized bikes at each Station, to ensure availability of excess docking space, to accommodate peak hour demand. The Service Provider will maintain a system docking capacity as follows:

$$d \geq 1.5 * f$$

Where,

- 'd' is the number of docks at each Station, designated for the Cycles of the system and
- 'f' is the Authorized Fleet at the Station

*The dock to Cycle ratio should hold true even at the system level. That is, at the system level-*

$$D \geq 1.5 * F$$

Where,

- D is the Total number of docks in the system*
- F is the Total Authorized Fleet size for the system*

### 3.3.5. **Number of Devices for Card verification**

This is the hardware required by the Station attendants to validate the user into the system and out of the system. This system will be connected to the central control system. Functionalities of the equipment are listed in the Technical specifications given in Section 4. There will be at least **one device/ Station** to be handled by Station attendants. High priority Stations where a higher demand is expected, the Service Provider may decide to provide more attendants and devices. The Service Provider may also decide to procure a few extra devices to act as back up.

## 3.4. **Central Control System**

The Service Provider should provide for a Central control system which can on a real time basis monitor the operations of the system (all its components). The central control system provides the back bone of the PBS system. The Control Centre will constitute GSCDCL's single point of contact to enable GSCDCL to coordinate with the Service Provider in the course of the day-to-day operation and management of the Cycle Sharing System by GSCDCL. The Service Provider shall ensure that the Control Centre is staffed by an adequate number of appropriately qualified personnel and further that there is due coordination between the staff at the Service Provider

control center and GSCDCL.

The space required for the Control Centre will be made available by GSCDCL. The Service

Provider should:

- should provide for software to aid in monitoring of the system including details like Cycle and dock availability at each Station.
- Software which will be able to aid the Service Provider in tracking Stations and enabling efficient redistribution of Cycles across Stations
- Software which will be able to help in system planning and expansion.
- Procure software and hardware for the processing of customer payments via different modes.
- The hardware and software should meet the “Minimum Technical Standards” as given in Section 4.
- 
- Provide a physically staffed central control room to house the central control system which will have computer terminals and communications equipment allowing Service Provider staff to monitor system status.
- Maintenance, payment of electricity bill and all other related expense of the space provide shall be borne by Service Provider.

### **3.5. *Redistribution***

The Service Provider shall ensure that the Cycles are redistributed on a regular basis between Stations to ensure that no Station is either empty (without any Cycles) or full (with no free dock available) for an extended period of time. The Service Provider should provide adequate number of vehicles which are used only for the purpose of redistribution of Cycles across Stations.

### **3.6. *Depots/ Workshops***

GSCDCL shall provide the adequate Depot/Workshop space for spare Cycles, Stations, Cycles repair, equipment and Parking space for redistribution vehicles.

The Service Provider shall source and install the maintenance equipment as necessary. Major repairs of the Cycles and Stations which cannot be carried out on the site shall be carried out at the depot/ workshop space developed by the Service Provider or provided by a third party. Such location should be accessible and appropriately equipped to manage the Cycle Sharing System. Equipment for maintenance & repair of Cycles is to be borne by the Service Provider.

### **3.7. *Registration of Users***

Registration is a necessary pre-condition to gain access to the PBS system. All users are required to register with the system using a valid ID proof. Each user then will be issued a personalized card which will have their name printed on it. Each card is linked to a person’s id in the system making it easy for the Service Provider to track the system usage of each user. Linking of individuals to smart cards is necessary for the system to identify and track the user who has borrowed the Cycles from the system, thus reducing the probability of theft and vandalism.

A few centers around the city will be identified by GSCDCL along with the Service Provider, where

registration will be undertaken. The users will have to go to these notified centers with valid id proof and the required security deposit (security deposit along with the fare structure is detailed out in *Annexure C*) to register with the system and be issued a smart card. Cards issued under the PBS system shall be valid on the BRT system as well.

### **3.8. Fare Collection System**

. A PBS card holder will be able to recharge the card online this would include making payments for memberships/ subscriptions and topping up smart cards. PBS registration centers will also be equipped to handle these transactions.

The Fare structure, Membership fees and usage fees have been determined by GSCDCL and is detailed out in *Annexure C*. No additional fees may be collected by the Service Provider or the staff. Tipping or any exchange of money for preferential service is prohibited and any staff engaging in such a practice should be disciplined accordingly.

However if there are any changes suggested in Fee Structure by the Service Provider same can be revised with the written approval by GSCDCL.

### **3.9. User Information System**

Service Provider need to develop and Integrated Website for PBS and establish a smart phone app for the system which will help users both static and real time information about the system. Also, if such information is to be integrated with any other system of GSCDCL Service Provider will provide support for same without any extra cost.

### **3.10. Advertisement Space**

The Service Provider will make available designated branding/advertising spaces on the Cycles and Stations available to GSCDCL as per the Technical Specifications.

The rights to advertising, sponsorship, naming, and branding rights associated with the system will remain with the Service provider but GSCDCL will have the final right of approval on the same.

The specifications of the advertisement panel are given in system specifications detailed in section 4.

Advertisement will be with reference to Madhya Pradesh Outdoor Advertisement Media Rules-2016, subject to the approval of GSCDCL.

### **3.11. Marketing and User Education**

The Service Provider will be responsible for carrying out on-going marketing activities to promote use of the Cycle Sharing System and user education of the system. Before and after the Commencement Date, the Service Provider will carry out marketing activities to promote the system and increase membership.

### **3.12. Human Resource Plan**

The Service provider will

- Enlist trained professionals to operate the Cycle Sharing System.
- Hire adequate staff to ensure that scope of services as mentioned in the RFP is met.

### **3.13. Data Reporting**

During the Operation Period:

- The Service Provider shall make available all the data pertaining to the Operation & Maintenance of the Project real-time that can be access by the GSCDCL or its representative. The real-time data shall be in such a format that the GSCDCL shall be able to evaluate the performance of the Service Provider against the Service Levels set forth in this Agreement.
- The Service Provider shall not later than 7 (seven) days after the close of each month, furnish to the GSCDCL a monthly report stating in reasonable detail the condition of the Project including its compliance with Service Level Benchmarks. In particular, such report shall separately identify and state in reasonable detail the defects and deficiencies that require rectification. This report will help GSCDCL to understand how much service charge accrues to the Service Provider for that month's operation standards.
- The Service Provider shall not later than 14 (fourteen) days after the close of each quarter furnish to GSCDCL a Quarterly report stating in reasonable detail the compliance with service level benchmarks and other details which will aid in making expansion plans of the system. This will include details of Stations with maximum and lowest demand, time of the day when there is maximum demand, steps that can be taken to improve user experience and quality of service including potential location where the Cycle share can be expanded to.
- GSCDCL may request the Service Provider for any additional information other than the real-time data if need be.
- GSCDCL will have complete ownership on the data.

### **3.14. Maintenance**

The Service provider needs to ensure that the Cycles and all other assets of the system are regularly maintained on a regular basis. The Service provider is required to do a maintenance check on every Station of the system at least once a week to ensure the quality of the Station infrastructure and the Cycles of the system. The Maintenance checks are not to be conducted during hours of operation of the system. Cycles which require more than on-Station maintenance should be taken to the Depot for repairs and be replaced with Cycles from the stand by fleet to ensure that the maintenance do not clash with regular operations of the system.

Information of the problems that were addressed at each Station with regard to Cycles and other infrastructure needs to be properly recorded and entered into the central data base.

The exact maintenance schedule will be finalized by GSCDCL after consultation with the Service Provider.

### **3.15. Legal**

- Service Provider shall bear all applicable National, State and local taxes on purchase of equipment.
- Service Provider shall bear all the risk incurred on vandalism of the system- Cycles, docks, terminals and other components within the Station premises & vandalism and loss of Cycle which has been rented out.
- Service Provider shall bear all applicable insurance, including vehicle insurance of other components of the system and passenger insurance as required under:

- Any Financing Agreements of Laws of India.
- Such Insurances as may be necessary in accordance with the Prudent Utility Practices.

## **5. Implementation**

### **5.1. Contract Period**

This Contract is being granted for the installation and operation of the Gwalior Cycle Sharing System for a Contract Period of 5 years (excluding the time required for system installation). The contract period can be extendable for further two more years. The decision for same will be taken by GSCDCL by seeing the service level benchmarks achieved by the Service Provider in preceding years.

The Service Provider shall make available for Service the entire Cycle Sharing System and the entire Fleet from Commencement of Operations until such time as the Contract Period expires, subject to the Assured Fleet Availability (according to Project Phasing) during the Contract Period.

### **5.2. On Ground Testing**

The Service Provider is required to run an on ground test of the system components for at least two weeks before the formal launch of the system to the general public. This period will be used by the Service Provider to identify any service glitches in the system and correct it. During this period, the Service Provider shall make available the following:

- Staff required for operations and maintenance of the Stations which are being tested.
- At least 10 Stations (with at least 50 Cycles and 125 docks), the Control Centre, and a Depot for the purpose of training and testing of operations.

GSCDCL and Service Provider shall use this period to understand the intricacies of operations and fine-tune the Cycle Sharing System. No fines shall be applicable during this period. The Authorised Fleet requirement is not applicable in this period. Cycles put into service on request by GSCDCL and authorized by GSCDCL for the purpose of training and testing shall be paid on actual basis at the Applicable Service Charge for the Period.

### **5.3. List of Indicative Deliverables**

The selected Service Provider should submit an indicative timeline to GSCDCL on the deliverables of the system. The timelines should be such that the Service provider is able to start the operations of the system within 12 months of signing the contract.

Payment to the Service Provider on the capital cost incurred will be paid based on the percentage of equity invested by the Service Provider.

## **6. Payment to the Service Provider by GSCDCL**

### **6.1. Capital Cost Payment**

The capital cost of the system that is borne by the Service provider will be reimbursed by GSCDCL. The ownership of the system hence lies with GSCDCL. The capital cost of the system is determined as the amount that the Service Provider bids in the bidding process as his capital cost. The capital cost incurred by the Service Provider is repaid in two installments by GSCDCL to Service provider post start of the operations of the system which is 12 months of signing the contract.

### **6.2. Operating cost Payment**

The Operating Cost of the system is to be borne by the Service Provider. However a part of the operating cost will be reimbursed by GSCDCL to the Service Provider if certain service level benchmarks are met. The operating cost is pre- determined based on the operating cost bid of the Service Provider in the competitive bidding process.

The payment due to the Service Provider from GSCDCL will be paid out on a quarterly basis. The payment will be made by GSCDCL within 15 working days of receipt of the quarterly performance report from the Service provider. All payments shall be made through electronic transfer by GSCDCL to the designated account of the Service Provider after deducting applicable tax deductions that GSCDCL may be obliged to deduct under Indian law.

The Service level benchmarks and the corresponding Payment from GSCDCL to Service Provider is given below:

	Sr. No	Performance Indicator	Explanation	Time	Acceptable Service Level	Compensation-Meeting the standard
Bicycle Distribution	1	High priority Stations*- empty, peak hours	Percent of the time that high-priority Stations are empty during peak hours	7am - 10 am & 4pm-7pm everyday	Should be less than 5% of the total time of operation	5% of the Operating Cost/ month
	2	High priority Stations- empty, non-peak hours	Percent of the time that high-priority Stations are empty during peak hours	Operating hours excluding peak hours	Should be less than 10% of the total time of operation	2.5% of the Operating Cost/ month
	3	Low priority Stations- empty, peak hours	Percent of the time that high-priority Stations are empty during peak hours	7am - 10 am & 4pm-7pm everyday	Should be less than 15% of the total time of operation	2.5% of the Operating Cost/ month
	4	Low priority Stations- empty, non- peak hours	Percent of the time that high-priority Stations are empty during peak hours	Operating hours excluding peak hours	Should be less than 20% of the total time of operation	2.5% of the Operating Cost/ month
Availability	5	Bicycle Availability	Average Cycle fleet available per day	At 6 am or when the operations start in the day whichever is later	Should always be 95% or more of the total authorised fleet size	2.5% of the Operating Cost/ month
	6	Service Availability	Number of hours when the system is operational	Operating hours of the system	Should always be 100% of the agreed hours of operations (unless permission has been granted by GSCDCL for otherwise)	2.5% of the Operating Cost/ month
Registration	7	Registration of Members	% of valid applications and registrations that are processed and membership issued within a day	All through the month	90% of all valid applications will have to be processed within 1 day of receipt of application	5% of the Operating Cost/ month
	8	Registration of Non-Members or renewal of membership or Top up of smart cards	% of valid applications for non-members, renewals and top of smart cards within half an hour	All through the month	90% of all valid applications will have to be processed within Half an hour	5% of the Operating Cost/ month
Maintenance	9	Availability of the Website and smart phone app	% of total time in a month when website and smart phone app is not available	All through the month	The website and smart phone app are available for at least 90% of the time during the entire month	2.5% of the Operating Cost/ month

	Sr. No	Performance Indicator	Explanation	Time	Acceptable Service Level	Compensation-Meeting the standard
	10	Maintenance Schedule	Following the pre-determined maintenance schedule	All through the month	The maintenance schedule is followed more than 90% of times as pre-determined	5% of the Operating Cost/month
Usage	11	Ridership level	Average ridership of the system per Cycle/day	All through the month	If the average ridership in the system is more than 4/Cycle/day	5% of the Operating Cost/month
	12	Memberships	Total Memberships/month	All through the month	If the total no of memberships for the system is 750 members or more	5% of the Operating Cost/month
Awareness	13	Trial Users	No of people who were riding during the trial riding sessions/no: of unique trial sessions	All through the month	If the total no: of trail users is more than 500 unique users/month & more than 10 trial sessions/month with different groups	5% of the Operating Cost/month

### **8.2.1. Evaluation of Technical presentation**

The methodology for evaluation of Technical presentation is given below:

S. No.	Parameter	Description	Score
1	Cycle	Aspects of the Cycle Design over and above the minimum specified requirements that result in improvements for the user, the Service Provider or GSCDCL.  Examples of such aspects include, but are not limited to: Lightweight Cycles. Embedded GPS Devices.	15
2	Station	Aspects of the Station Design over and above the minimum specified requirements that result in improvements for the user, the Service Provider or GSCDCL Simple attractive design of the Station.	15
3	User Interface and Experience	Aspects of user interface at the Station and smart phone app and the user's experience in using the system which is better than the minimum stands specified. Info graphic representation of user information. Extra functionalities on the smart phone app	10
4	ITS Strategy	Aspects of the ITS system which is over and above the minimum specified qualification. Enabled to integrate with other new modes of transport. Reporting structure which aids in planning for expansion. Reporting structure which helps GSCDCL to monitor service level benchmarks with no manual inspection.	20
5	Awareness and User Generation Campaign	The methodology for awareness and user generation including: Innovative methods used for generation of user interest and the target groups for each campaign The rationale for choosing the methods chosen The detailed plan along with time lines for the Campaign	15
6	Operations Plan + HR	Aspects of the Operations and HR plan which is over and above the minimum specifications. Efficient plan on redistribution of Cycles. Use of environment friendly vehicles for Cycle distribution.	15
7	Prior Experience	If the Bidder or bidder consortium has had any experience in PBS planning and operation. Other Cycle related businesses. Planning and operation of any other public transport systems in India. Operating fare collection and ITS systems for mass transit in India	10

All bidders will be evaluated on the presentation on above parameters of the bid. The objective

of the presentation is to:

- Demonstrate the solution in real life scenario.
- Understand the system's features in greater detail.
- Understand the proposed system's fit to Corporations requirements
- **How the fare collection system will be integrated** with Control Command Centre, Gwalior.
- Approach and Methodology.
- Project plan.
- Technical solution proposed in the technical bid.
- Addressing all queries on the technical bid from GSCDCL or its representatives.

Note: Bidders have to submit the proof of documents for pre-qualification criteria & technical presentation parameters in its online bid.

To qualify for the next round, financial bid evaluation and the bidder's technical bids need to meet certain standards:

- Bidders scoring less than 50 in the Technical Bid evaluation are immediately disqualified.

#### **8.2.2. Evaluation of Financial Bids**

- Commercial Bids of only Technically qualified bidders who have obtained 50 or above marks in the technical bid evaluation process will be opened.
- Financial score for both the capital cost bid and operating cost bid will be calculated separately.
- The maximum amount that can be bid on the capital cost is Rs. 2,500,00,000 (Rs. 2.5 Crores).
- Financial Score of both capital bid and operating cost will be computed separately by dividing the least of the Quotes received by the Bidder's own Quote.
- The lowest financial proposal should be given a financial score of 100 points. The financial scores of other proposals should be determined proportionately.
- Financial Score of Capital Bid is calculated on the basis of the formula given below:

$$\text{Financial Score of Capital Bid} = \left( \frac{\text{LP (CB)}}{\text{OP (CB)}} \times 100 \right)$$

Where,

LP (CB) - Lowest Price offer on the Capital Bid of the Technically Qualified Bidders and

OP (CB) - Offer Price on the Capital Bid of the bidder being evaluated.

- Financial Score of Service Charge Bid is calculated on the basis of the formula given below:

$$\text{Financial Score of Operating Cost Bid} = \left( \frac{\text{LP (OB)}}{\text{OP (OB)}} \times 100 \right)$$

Where,

LP (OB) - Lowest Price offer on the Operating Cost Bid of the Technically Qualified Bidders

OP (OB) - Offer Price on the Operating Cost Bid of the bidder being evaluated.

The Financial Bids will be opened, in the presence of Bidders' representatives who choose to attend the Financial Bid opening on date and time to be communicated to all the technically

qualified Bidders. The Bidder's representatives who are present shall sign a register evidencing their attendance.

GSCDCL Executive Director Reserves the right to reject all/any part of the tender without assigning any reason whatsoever and his decision in this regards shall be final and binding. He is not bound to disclose the details of the evaluation process in terms of methodology, evaluation criteria and scores.

**Commercial Bid Rejection Criteria:**

- Incomplete Price Bid
- Price Bids that do not conform to the Tender's price bid format

**8.2.3. Combined Score**

The Bids received will be evaluated using **Quality cum Cost Based Solution (QCBS)**.

After the Technical evaluation, the evaluation committee will evaluate each of the Technically Qualified bidders' response on the basis of technical and commercial parameters. The weightage of the technical and commercial parameters will be in the ratio of **80:20** respectively.

For calculation of the combined Technical and Price Score of all bidders, following formula will be used:

$$\text{Total Score} = (\text{Technical Score} \times 0.50) + (\text{Financial Score of Capital Cost Bid} \times 0.10) + (\text{Financial Score of Operating Cost Bid} \times 0.40)$$

The Successful Bidder shall be the applicant whose proposal secures the highest combined score. However, in the event the proposals of two or more applicants have the same scores in the final ranking, the proposal with the highest technical score will be ranked first.

**9. General Instructions To Bidders**

**9.1. Due Diligence**

The Bidder is expected to examine all instructions, forms, terms and specifications in the RFP. The Bid should be precise, complete and in the prescribed format as per the requirement(s) of the RFP. Failure to furnish all information required by the RFP or submission of a Bid not responsive to the RFP in every respect will be at the Bidder's risk and may result in rejection of the Bid.

**9.2. Cost of Bidding**

The Bidder shall bear all costs associated with the preparation and submission of its Bid and GSCDCL will in no case be held responsible or be liable for these costs, regardless of the conduct or outcome of the Bidding Process.

**9.3. Clarification to RFP Documents**

In the event that any Bidder requires any clarification on the RFP, such Bidder are expected to send their queries to GSCDCL in writing by email before date mentioned for Pre-Bid queries in NIT at [gscdcltender@gmail.com](mailto:gscdcltender@gmail.com) in order to enable GSCDCL to have adequate notice of the said

queries so that the same may be addressed at the Pre Bid Meeting:

Contact for questions about RFP submission procedures, Technical Specifications and Terms and Conditions at:

*Nothing in this section shall be taken to mean or read as compelling or requiring GSCDCL to respond to any questions or to provide any clarification to a query. GSCDCL reserves the right to not respond to questions it perceives as non-relevant which may be raised by a Bidder or not to provide clarifications if GSCDCL in its sole discretion considers that no reply is necessary.*

No extension of Deadline for Submission of Bids will be granted on the basis or grounds that GSCDCL has not responded to any question or provided any clarification to a query.

#### **9.4. Pre-Bid Meeting**

1. GSCDCL will host a Pre-Bid meeting as per the date mentioned in the RFP Information sheet. The interested Bidders may attend the pre-bid meeting at their own cost. The purpose of the Pre-bid meeting is to provide the Bidders with information regarding the RFP and the proposed solution requirements in reference to the RFP. ### Annexure C.: Fare Structure

The proposed fare structure for the system as determined by the GSCDCL is given below. There are four main components to the fare and payment structure:

1. Security Deposit
2. Subscription Fee
3. User Fees
4. Processing Fee

**Security Deposit-** A refundable Security Deposit will be charged on all users to ensure safety of the system's Cycles. Lack of a security deposit could lead to theft of Cycles or the Cycles not being returned back to the system and being discarded around the city.

The Security Deposit should be linked to the insurance amount of Cycles and should not exceed an insurance amount per Cycle. Ideally the security deposit charged from each user should be the insurance amount/Cycle. This will be charged on all kinds of users for the length of their use/membership, at the end of which it would be returned, in case there has been no case of missing Cycles attributed to the person's account.

**Subscription Fees-** Users may if they prefer subscribe to the system to become a member. Not all users who are registered with the system are required to become members. Members are granted with the benefit of unlimited number of Cycle hires of the trip lengths half an hour or lesser during the time of their membership.

Three types of membership will be offered in the system.

- One-Year Pass- Membership valid for a year
- Three Month Pass- Membership valid for three months
- One-Month Pass – Membership valid for a month

The proposed subscription fee for each membership is given below:

Subscription Type	Fee (Rs.)
One Year Pass	999
Three Month Pass	299
One Month Pass	149

## User Fees

The proposed fees that users pay based on the amount of time Cycles were borrowed each time before it is returned to the system.

Time	Non Member- User Fees (Rs.)	Member- User Fees (Rs.)
0- 30 mins	5	
30 mins- 1 hours	10	
1 hour- 2 hours	25	
2 hours- 3 hours	50	
3 hours- 4 hours	100	0
4 hours- 6 hours	175	
6 hours- 8 hours	250	
> 8 hours	350	

## Processing Fee

An amount of **Rs. 50 is** charged as processing fee for issuing a card to a user. Members are exempt from this charge.
