

Annex 2 – Self Assessment

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
1	Citizen participation	A smart city constantly shapes and changes course of its strategies incorporating views of its citizen to bring maximum benefit for all. (Guideline 3.1.6)	The City begins identifies priorities and projects to pursue without consulting citizens.	City undertakes citizen participation with some select stakeholders. The findings are compiled and incorporated in some projects or programs. Very few major decisions are shared with -citizens until final projects are unveiled.	City conducts citizen engagement at city level and local area level with most stakeholders and in most areas. The findings are compiled and incorporated in projects or programs.	City constantly conducts citizen engagement with people at each Ward level to incorporate their views, and these shape priorities and development projects in the city. Multiple means of communication and getting feedback such, both face-to-face and online are utilised. The effectiveness of city governance and service delivery is constantly enhanced on the basis of feedback from citizens.	3	<ol style="list-style-type: none"> 1. Pasighat has a strong volunteer culture. 2. Community linkages ensure high participation and turnout in polls and consultations. 3. Existing citizen engagement measures are strong and effective in eliciting responses and participation in initial phases (planning and conceptualization) 	4	<ol style="list-style-type: none"> 1. Putting in place a platform for collaborative growth – fostering grassroots level community participation to encourage co-creation of solutions and continuous feedback mechanism to monitor and calibrate rollout of schemes.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
2	Identity and culture	A Smart City has a unique identity, which distinguishes it from all other cities, based on some key aspect: its location or climate; its leading industry, its cultural heritage, its local culture or cuisine, or other factors. This identity allows an easy answer to the question "why in this city and not somewhere else?" A Smart City celebrates and promotes its unique identity and culture. (Guideline 3.1.7)	There are few architectural monuments, symbols, and festivals that emphasise the unique character of the city. Built, natural and cultural heritage is not preserved and utilised or enhanced through physical, management and policy structures.	Historic and cultural resources are preserved and utilised to some extent but limited resources exist to manage and maintain the immediate surroundings of the heritage monuments. New buildings and areas are created without much thought to how they reflect the identity and culture of the city.	Historic and cultural heritage resources are preserved and utilised and their surroundings are well-maintained. Public spaces, public buildings and amenities reflect the cultural identity of the city.	Built, natural and intangible heritage are preserved and utilised as anchors of the city. Historical and cultural resources are enhanced through various mediums of expression. Public spaces, open spaces, amenities and public buildings reflect local identity and are widely used by the public through festivals, events and activities.	2	<ol style="list-style-type: none"> 1. Heritage buildings(one Medical Dispensary etc.) in the vicinity of town are preserved. 2. Public space ,open spaces are widely used by the public through festival and cultural events. 	4	<ol style="list-style-type: none"> 1) Branding and promotion of cultural heritage and identity that is sustained economically through development of tourism products rooted in local context.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
3	Economy and employment	A smart city has a robust and resilient economic base and growth strategy that creates large-scale employment and increases opportunities for the majority of its citizens. (Guideline 2.6 & 3.1.7 & 6.2)	There are some job opportunities in the city but they do not reach all sections of the population. There are a high number of jobs in the informal sector without sufficient facilities.	There is a range of job opportunities in the city for many sections of the population. The city attempts to integrate informal economic activities with formal parts of the city and its economy.	There are adequate job opportunities for all sections of society. But skill availability among residents can sometimes be a challenge.	There are adequate opportunities for jobs for all sections of income groups and skill levels. Job-oriented skill training supported by the city and by industry. Economic activities are suited to and build on locational and other advantages of the city.	1	<ol style="list-style-type: none"> 1) Low Work force Participation of 32% 2) Lack of infrastructure and lack of avenue. 3) Less population and more out migration to other cities. 	4	INCUBATION OF BUSINESS OPPORTUNITIES - Capacity building, skill development and market linkages to tap into the latent economic potential from locally available resources such as eco-tourism, renewable energy, organic produce and herbal plants, traditional handicrafts etc.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
4	Education	A Smart City offers schooling and educational opportunities for all children in the city (Guideline 2.5.10)	The city provides very limited educational facilities for its residents. There are some schools but very limited compared to the demand. Many schools are in poor condition.	City provides adequate primary education facilities within easily reachable distance of 15 minutes walking for most residential areas of the city. The city also provides some secondary education facilities.	City provides adequate primary and secondary education facilities within easily reachable distance for most residential areas of the city. Education facilities are regularly assessed through - databases of schools including number of students, attendance, and teacher - student ratio, facilities available and other factors.	City provides adequate and high-quality education facilities within easily reachable distance of 10 minutes walking for all the residential areas of the city and provides multiple options of connecting with specialised teaching and multimedia enabled education. Education facilities are regularly assessed through database of schools including number of students, attendance, teacher-student ratio, facilities available and other factors.	3	City is known for its Education services. It has Higher education facilities with one private university, 2 govt. University, one college of horticulture & Forestry under CAU ,Institute of Folk medicine, polytechnic college and agriculture university.	4	Provision of smart education services including database management, performance assessment, smart classrooms with audio-visual teaching means and focusing on digital literacy for school-going students and adult education after school hours.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
5	Health	A Smart City provides access to healthcare for all its citizens. (Guideline 2.5.10)	Healthcare is difficult for citizens to access - demand for healthcare often exceeds hospitals' ability to meet citizen needs.	The city provides some access to healthcare for its residents but healthcare facilities are overburdened and far from many residents. Access to preventive health care is only easily available for some residents.	City provides adequate health facilities within easily reachable distance for all the residential areas and job centers of the city. It has an emergency response system that connects with ambulance services.	City provides adequate health facilities at easily accessible distance and individual health monitoring systems for elderly and vulnerable citizens which are directly connected to hospitals to prevent emergency health risks and to acquire specialised health advice with maximum convenience. The city is able to foresee likely potential diseases and develop response systems and preventive care.	3	1) The General Hospital has facilities for Tele-Medicine Services(ISRO), Health Research & Training Centre. 2) City provides adequate Primary & Secondary Healthcare. 3) City has Rehabilitation Centre(Drug Abuse) 4) Lack of adequate tertiary healthcare facilities. 5) Inadequate emergency response system.	4	Provision of Smart Health Care to make healthcare accessible and work for all citizens. This includes: <ul style="list-style-type: none"> Hospital database management Online booking and appointment Tele/ Video Consultations Real-time blood bank dashboards Electronic patient medical records Tracking and geo-tagging of medical waste for responsible waste management

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
6	Mixed use	A Smart City has different kinds of land uses in the same places; such as offices, housing, and shops, clustered together. (Guidelines 3.1.2 and 3.1.2)	The city has mostly separated uses and areas are focused either on residential, commercial, or industrial, with little co-existence of uses. The average resident cannot walk to the closest market or shops near his or her home. For almost everyone, going to work or going shopping for basic needs requires a journey by automobile or bus of more than 15 minutes. Land use regulations prevent putting commercial or office locations in residential neighborhoods and vice versa.	In some parts of the city, there is a mixture of land uses that would allow someone to live, work, and shop in close proximity. However, in most areas, there are only small retail stores with basic supplies near housing. Most residents must drive or use public transportation to access a shop for food and basic daily needs. Land use rules support segregating housing, retail, and office uses, but exceptions are made when requested.	Most parts of the city have housing, retail, and office buildings in close proximity. Some neighbourhoods have light industrial uses within them (e.g., auto repair, craft production). Land use rules allow for mixed uses.	Every part of the city has a mix of uses. Everyone lives within a 15-minute trip of office buildings, markets and shops, and even some industrial uses. Land use rules require or encourage developers to incorporate a mixture of uses in their projects.	3	1) City has Adequate Open Spaces for Parks and other Recreational Activities (12% of Gross area) 2) Lower region area has Mixed use Character(Houses, Retail outlets, Handicraft centres etc.) 3) Absence of Land use regulation	4	Advocate and adopt mixed use and urban design guidance in statutory plans and notification of the same.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
7	Compact	<p>A Smart City encourages development to be compact and dense, where buildings are located close to one another and are ideally within a 10-minute walk of public transportation, forming concentrated neighborhoods. (Guidelines 2.3 and 5.2)</p>	<p>The city is expanding rapidly at its periphery into undeveloped land, rural or natural areas, or along industrial corridors - both formally and informally. Formal new development is occurring in a way that is "sprawling," meaning that the buildings spread across a wide area and are far from one another. Residents or tenants find it easier or safer to travel by automobile because it takes a long time to walk between destinations and there are busy roads separating buildings. Large pockets of land in the inner-city are vacant. New developments at the periphery tend to be large-scale residential developments, often enclosed with a gate and oriented to the automobile.</p>	<p>The city has one or two high density areas - such as the city center, or historic areas, where buildings are concentrated together and where people can walk easily from building to building and feel as though they are in center of activity. Most of the city consists of areas where buildings are spread out and difficult to walk between, sometimes with low-density per hectare. Regulations tend to favor buildings that are separated from one another, with lots of parking at the base and set-back from the streets. The city likely has some pockets of under-utilized land in the center. New formal developments at the periphery tend to be large-scale residential developments, often enclosed with a gate and oriented to the automobile.</p>	<p>The city has multiple high density clusters that are easy to walk around where buildings are close together. However, the city actively encourages development to occur on under-utilized parcels of land into high-density, walkable areas. When new formal large-scale development projects happen at the periphery, they are encouraged to be dense and compact, with buildings that are close together and line the streets. The city actively encourages or incentivizes re-development of under-utilized parcels in the inner-city, especially those located close to public transportation.</p>	<p>The city is highly compact and dense, making the most of land within the city. Buildings are clustered together, forming walkable and inviting activity centers and neighborhoods. Regulations encourage or incentivize re-development of under-utilized land parcels in the city center. Buildings are oriented to the street — and parking is kept to a minimum, located below ground or at the back of buildings. Public transport and walking connects residences to most jobs and amenities. Residential density is at an optimal with affordable housing available in most areas.</p>	2	<p>1) City has density of 70-80 ppha ,City has only one high dense area i.e. market area with density of 100-120 ppha.</p> <p>2) Facilities are concentrated in core city with dilapidated structures and these areas needs to be retrofitted.</p>	4	<p>Adapt general principles of smart growth (higher densities, inclusionary housing, place making, walkability) to local context and building traditions. Adopt the same in statutory urban development plans to guide strategic planning in a sustainable manner and to guide development to existing communities. Counter CBD project will implement these ideas as a high visibility pioneering initiative.</p>

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
8	Public open spaces	A Smart City has sufficient and usable public open spaces, many of which are green, that promote exercise and outdoor recreation for all age groups. Public open spaces of a range of sizes are dispersed throughout the City so all citizens can have access. (Guidelines 3.1.4 & 6.2)	The city has very few usable public open spaces and very few usable green spaces. Available recreational spaces are located far away and are dispersed at long distances around the city. The few available public open spaces offer a limited variety of experiences for all sections of population and age groups such as places for sport, places for rest, and places for play.	A variety of public open spaces are available in some neighbourhoods, but are not available in all the areas of the city or are located far away from residential areas. Many of the open spaces have access restrictions, or are not well-maintained. A variety of types of public open spaces may be lacking, such as natural areas, green areas, parks, plazas, or recreation areas.	Most areas of the city have some sort of public open space. There is some variety in the types of public spaces in the city. However, public spaces are sometimes not within easy reach or access of more vulnerable populations and are more restricted in poorer neighbourhoods.	Public open spaces are well dispersed throughout the city. Every residential area and work space has access to open space within 10 minutes walking distance. Open spaces are of various types - natural, green, plazas, parks, or recreation areas - which serve various sections of people. Public spaces tend to truly reflect the natural and cultural identity of the city.	2	1. There are various open grounds with in the city and in its vicinity .These are used for multipurpose activities. 2. Out of 12% of City area which comprises of the open spaces , only 3.75% area falls under parks. 3. 3% of the gross area covered by Water bodies and Streams.	4	Blue and Green Corridors Projects comprehensively addresses ecological restoration of existing water bodies, strengthening and capacity augmentation of drains, creation of storm water parks and developing multi-function open spaces for intensive use by all age groups.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
9	Housing and inclusiveness	A Smart City has sufficient housing for all income groups and promotes integration among social groups. (Guidelines 3.1.2)	Housing is very limited and highly segregated across income levels. Population growth far exceeds the creation of new housing. The poor live in informal settlements with limited to no access to basic services, and are concentrated in a few areas. The wealthy live in separate enclaves. Those in the middle have few , if any options.	Housing is available at most income levels but is highly segregated across income levels. Population growth slightly exceeds the creation of new housing. The wealthy and the middle class have housing that meets their needs at costs appropriate to their income. The poor live in informal settlements.	Housing is available at all income levels, but is segregated across income levels. The growth of supply of housing almost meets the rate of population growth. Increasingly, lower and middle-income people can find housing in areas that are conveniently located.	A wide range of a housing is available at all cost levels. The supply of housing is growing at pace with population. Affordable, moderate, and luxury housing are found clustered together in many areas of the city	3	1) 60% of houses in High Region area are in Dilapidated condition. 2) Low income groups are living in rental housing.	4	Creation of Affordable Housing under PMAY and provision of inclusionary housing under Redevelopment project on Govt. Land.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
10	Transport and Mobility	A Smart City does not require an automobile to get around; distances are short, buildings are accessible from the sidewalk, and transit options are plentiful and attractive to people of all income levels. (Guidelines 3.1.5 & 6.2)	Personal automobile centric city with very few modal options. Long trip lengths for daily commute to work and education. Accessing various areas by walking or cycling is difficult. Women and vulnerable sections find it very difficult to move independently in the city. There is limited public transport. Vehicles cause high air and noise pollution levels in the city. Vehicles dominate public spaces and affect their effective functioning.	The street network system is elaborate but public transport choices are restricted. Public transport can be too expensive or unaffordable for the poor. Pedestrian infrastructure is only available in select areas. The majority of investments focus on reducing traffic congestion through the creation of more roads.	Network of streets are fairly complete. Public transport covers most areas of the city. However last mile connectivity remains incomplete -and affects transport options- Foot paths are accessible in most areas, whereas concerns of safe crossings and security throughout the day remain. Parking zones are demarcated but absence of pricing increases over utilization of parking lots.	Street network is complete and follows a clear structure. Public transportation network covers the entire city and intensity of connection relates with the demand. Plenty of options of public transport are available and affordable for all sections of the society. There is multi-modal integration at all mass transit stations and organized-priced on street and off street parking. Walking and cycling is prevalent.	2	1. Personal automobile centric city with very few modal options. 2. Inadequate traffic infrastructure and signals. 3. Inadequate street lights in the city. 4. City is characterized by its broad roads and too many intersections	4	Urban Renewal Project (Road retrofit component) Removal of encroachments from ROWs and Street retrofitting for equitable sharing of road space for pedestrians, cyclists, differently abled, etc. Design guidance on the same will come from Urban Design and Public Realm guidelines in statutory plans.
11	Walkable	A Smart City's roads are designed equally for pedestrians, cyclists and vehicles; and road safety and sidewalks are paramount to street design. Traffic signals are sufficient and traffic rules are enforced. Shops, restaurants, building entrances and trees line the sidewalk to encourage walking and there is ample lighting so the pedestrian feels safe day and night. (Guidelines 3.1.3 & 6.2)	The city is designed mainly for the automobile. Daily life without a car requires long bus rides. Walking is difficult and often dangerous; there are few pavements, existing pavements need repair and lack trees to provide shade for pedestrians, and marked pedestrian crossings are rare. New buildings have their main entrances set-back from the street, sometimes with large driveways or parking lots separating them from the street, and sometimes are enclosed by gates. Traffic signals are often disobeyed	Older areas of the city see a mix of pedestrians, cyclists, and vehicles but newer areas are focused mainly on the automobile. In the new areas, there are few pavements and main entrances to new buildings are not accessible from the front of the street. Large driveways or parking lots often separating them from the street, and sometimes are enclosed by gates. In these areas, traffic signals are disobeyed.	The city has a good network of pavements and bike lanes. Buildings in most areas of the city are easily accessible from the pavement. However, traffic signals are sometimes disobeyed and it can feel difficult to cross the street.	The city is highly walkable. Pavements exist on every street and are maintained. Trees line many sidewalks to provide shade for pedestrians. Buildings in most areas of the city are easily accessible from the sidewalk. Traffic signals control the flow of automobiles and are enforced. A network of bike lanes exists to promote cycling as a means of transport. Traffic rules are followed and enforced with great seriousness.	2	1. Buildings are not accessible directly from the street. 2. Street lighting is inadequate. 3. City has ample space for walking and pedestrian facilities.	4	Adoption of Smart Growth, Urban Design and Public Realm guidelines for enhancement of overall urban form.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator or	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
12	IT connectivity	A Smart City has a robust internet network allowing high-speed connections to all offices and dwellings as desired. (Guideline 6.2)	City has no major plans to bring increased high speed internet connectivity to the public.	The city has made plans to provide high speed internet connectivity through the existing framework.	The city makes has high speed internet connectivity available in most parts of the city.	The city offers free wifi services to provide opportunity for all the citizens to connect with high speed internet across the city.	2	<ul style="list-style-type: none"> 3G broadband connectivity is poor in major parts on city. Lack of towers proves to be an obstacle to uniform high speed connectivity in various parts of the city. 	4	<p>City optic fibre backbone and city wide Wifi Hubs project to bring assured future-ready broadband network and access to digital infrastructure for rollout of ICT based solutions.</p> <p>Provision of OFC network (SWAN) is under process.</p>

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
13	ICT-enabled government services	A Smart City enables easy interaction (including through online and telephone services) with its citizens, eliminating delays and frustrations in interactions with government. (Guidelines 2.4.7 & 3.1.6 & 5.1.4 & 6.2)	Essential Government services are not linked with online platforms. Paper intensive interactions with the local Government continues. Receiving services and response to citizen complaints take a long time. There is limited availability of data to monitor service delivery.	Some of the public services are provided online and infrastructure for total digitalization is not in place. Service delays occur regularly in some sectors. Responses to citizen inquiries or complaints are often delayed. No integration between services and billing.	Most of the services are provided online and offline. Data transparency helps monitoring. Systema and processes to better coordinate between various Government agencies are being developed.	All major services are provided through online and offline platforms. Citizens and officials can access information on accounting and monitor status of projects and programs through data available on online system. Robust data infrasturcture system shares information and enhances internal governmental coordination.	2	<p>District Administration has started Jan suvidha Kendra in 2012 along with Sarathi & Vahan .</p> <p>e-pds & e-arik for public distribution system and Agriculture respectively is already in place.</p>	4	<ol style="list-style-type: none"> Digitalization of E-Jan suvidha kendras is going on . Provision of E-services is under progress for other sectors. E-Governance <ul style="list-style-type: none"> -Online application -Online payment -Grievance redressal

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
14	Energy supply	A Smart City has reliable, 24/7 electricity supply with no delays in requested hookups. (Guideline 2.4)	There is only intermittent electricity supply with regular power shedding. Many residents have to plan their days around when power is available.	Electricity supply and loads are managed as per demand and priority for various functions with clear scheduling, with electricity being available in many areas for most hours of the day.	Electricity is available in most parts of the city for most hours of the day but some areas are not so well-served. Smart metering exists in some parts of the city but not all.	Electricity is available 24 x 7 in all parts of the city with smart metering linked to online platforms for monitoring and transparency.	3	1) Provision of electricity in almost all the part of city but some areas are not well served. 2) There are cases of power outages. 3) Peak demand fluctuate between 5.34 MW to 6 MW.	4	1. Implementation of smart metering system. 2. Conversion of Over head cables to underground cabling. 3. Upgradation of existing infrastructure.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator or	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
15	Energy source	A Smart City has at least 10% of its electricity generated by renewables. (Guideline 6.2)	The city does not have any renewable sources of energy and there is no commitment to promote this for the foreseeable future.	The city is preparing plans for ensuring that it gets more energy from renewable sources and is in the process of making commitments in this regard.	Some energy consumed is the city is produced through renewable sources. There are long term targets for higher renewable energy capacities and the city is making plans to achieve these.	At least 10% of the energy used in the city is generated through renewable sources. The city is undertaking long-term strategic projects to tap renewable sources of energy in its region/beyond to increase the percentage of renewable energy sources.	2	1. Currently city is withdrawing power from grid source on 33kv HTOH power line. 2. Solar energy is harnessed in some government office buildings. 3. Currently 40-50 Solar Lights are installed in Pasighat town 4. One of the key proposal in this sector is Solar power plant of 6 MW capacity by APEDA.	4	1. Proposal of 1100 LED based solar street light. 2. Additional 9MW solar power generation to cater to the future demand. 3. Enforce the use of rooftop solar panels on all government and institutional buildings.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
16	Water supply	A Smart City has a reliable, 24/7 supply of water that meets national and global health standards. (Guidelines 2.4 & 6.2)	The city has a poor water supply system with limited water availability. There are no clear targets to achieve higher quality and optimal quantity standards. Unaccounted water loss is above 40%	The city has intermittent water supply and availability. However it is setting targets and processes in place to try to improve its water supply. Unaccounted water loss is less than 30%.	The city has 24 x 7 water supply in most areas but the quality of water does not meet international health standards. Unaccounted water loss is less than 20%.	The city has 24 x 7 treated water supply which follows national and global standards and also available in sufficient quantity and affordable across all sections of the society. Unaccounted loss less than 15%.	2	<ol style="list-style-type: none"> The existing water pipeline network is old, due to which unaccounted water loss is not precisely measurable. Existing water supply is 70 lpcd. 90% of HH's are connected to the PHED water connection. No metered connection. 	4	<ol style="list-style-type: none"> Installation of new water pipeline network across the city and enhance distribution system. Installation of SCADA system. Coverage will be increased to 100% Installation of smart meter at city level. Installation of new water storage tanks. Utility duct for laying of underground water pipelines .

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
17	Water management	A Smart City has advanced water management programs, including smart meters, rain water harvesting, and green infrastructure to manage stormwater runoff. (Guideline 6.2)	The city does not measure all its supply. It does not recycle waste water to meet its requirements and rain water harvesting is not prevalent. Flooding often occurs due to storm water run-off.	The city has meters for all its water supply but lacks mechanisms to monitor. Water wastage is very high. Some, but not much, rainwater harvesting exists.	The has meters for all its water supply with some smart mechanisms to monitor. Rainwater harvesting systems are installed and storm water is collected and stored in water bodies. However, recycling of waste water and reusage of storm water is limited.	The city has meters for all its water supply. It includes smart mechanisms to monitor remotely. Rainwater harvesting systems are installed and utilised through the city and storm water is collected and stored in water bodies and treated for usage. Recycled waste water is supplied for secondary uses.	1	<ol style="list-style-type: none"> Distribution system is 50 years old Approximately 30% NRW due to leakage. No rain water harvesting . Drying up of surface water specially from November to March. 	4	<ol style="list-style-type: none"> PAN city proposal include Integrated water management system, which will include smart water metering, SCADA and sustainable urban drainage system

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
18	Waste water management	A Smart City treats all of its sewage to prevent the polluting of water bodies and aquifers. (Guideline 2.4)	The city is unable to treat all its sewage. Many local sewer lines open on to water bodies and open ground and pollute the environment.	Most waste water is collected and treated before before disposal. However the treated water does not meet standards and is not recycled for secondary uses.	All the waste water is collected and treated before disposal. It is also treated to a high standard and some is recycled.	The city has zero waste water because all the waste water is collected, treated and recycled. It meets standards and reduces the need for fresh water.	1	<ol style="list-style-type: none"> 1. City is not equipped with waste water management system. 2. All existing drains discharged into the canals. 3. Most of the houses are equipped with their own Septic Tanks. 	3	<ol style="list-style-type: none"> 1. Provision of Road side drainage. 2. 100% Sewage treatment and reuse. 3. Septage Management. 4. Zero discharge in water bodies.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
19	Air quality	A Smart City has air quality that always meets international safety standards. (Guideline 2.4.8)	City does not have plans, policies or programs to improve the air quality. Systems to monitor air quality are absent.	City has programs and projects to monitor air quality and spatialising the data to ascertain reasons for degrees of pollution in the air. A few strategies to decrease air pollution have been implemented.	City has programs and projects to monitor air quality and spatialising the data to ascertain reasons for degrees of pollution in the air. Pollution levels are acceptable.	The city has clean air by international standards. Live Air quality monitoring cover the entire city and data of air quality are mapped.	3	<ul style="list-style-type: none"> • Clean air that meets international safety standards • Currently there is no Systems to monitor air quality. 	4	<ul style="list-style-type: none"> • Proposals for real time air quality monitoring at various locations. • Emphasis on NMT systems and battery operated vehicles for public transport.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
20	Energy efficiency	A Smart City government uses state-of-the-art energy efficiency practices in buildings, street lights, and transit systems. (Guideline 6.2)	City has no programs or controls or incentive mechanisms to promote or support energy efficiency in buildings	The city promotes energy efficiency and some new buildings install energy efficiency systems that track and monitor energy use and savings.	Most new public buildings install energy efficiency systems and some older buildings are also retrofitted to be more energy efficient. Local government conducts counselling and outreach with developer, businesses and residents to adopt energy efficiency strategies	All the existing old and new public buildings employ energy efficiency principles in development and operation and apply for energy rating by national and international forums. Many non-public buildings are also energy efficient because the government promotes energy efficiency through incentives and regulations.	1	1. There are solar panels on a few institutional buildings and individual houses. 2. Apart from these there is no energy efficiency practice in place.	4	1. 100% Energy from renewable resources like solar, water, wind and biomass. 2. Enforcement of rooftop solar power panels for all commercial and institutional buildings in the city.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
21	Underground electric wiring	A Smart City has an underground electric wiring system to reduce blackouts due to storms and eliminate unsightliness. (Guideline 6.2)	City does not have plans for underground electric wiring system.	More than 40% of the city has underground electric wiring system.	More than 75% of the city has underground electric wiring system.	More than 90% of the city has underground electric wiring system.	1	1. At present there are no underground electric cabling in the city.	3	1. Installation of new underground electric cabling system.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
22	Sanitation	A Smart City has no open defecation, and a full supply of toilets based on the population. (Guidelines 2.4.3 & 6.2)	Many parts of the city do not have access to sanitation infrastructure and facilities.	Sanitation facilities are available to 70% of the city's population.	Sanitation facilities are available to 90% of the city's population.	Sanitation facilities are available to 100% of the city's population.	3	1. 80% of households have toilet facility within premises. 2. Key concern is the lack of public toilets (only 5 in the city) due to O&M Challenges.	4	1. Coverage of sanitation facilities will be extended to 100%. 2. Septic tank clearance to be regularised. 3. Public toilets (bio toilets). 4. Proposal for Sewerage Network. 5. Proposal for Packaged STP.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
23	Waste management	A Smart City has a waste management system that removes household and commercial garbage, and disposes of it in an environmentally and economically sound manner. (Guidelines 2.4.3 & 6.2)	Waste collection systems do not pick up waste on a frequent basis and waste often enters into water bodies.	Waste generated is usually collected but not segregated. Recycling is attempted by difficult to implement.	Waste is segregated, collected, recycled and disposed in an environmentally sound manner.	The city reduces land fill caused by waste so that it is minimal. All the solid waste generated is segregated at source and sent for recycling. Organic waste is sent for composting to be used for gardening in the city. Energy creation through waste is considered.	2	1. Waste collection coverage is 70% 2. Waste collection efficiency is 60% 3.No waste segregation	4	1.100% door to door collection. 2. Awareness about Reduce – Reuse – Recycle. 3. Enforce waste segregation at source. 4. Slaughterhouse provision. 5. Vermicomposting plants will be setup. 4. Generate energy from waste.

	Feature	Definition	Scenario 1 (BASE)	Scenario 2	Scenario 3	Scenario 4 (ADVANCED)	Self-assessment of the city (for Pan-City Solution) with regard to each feature	Basis for assessment and/or quantitative indicator (Optional - only if data exists)	Projection of 'where the city wants to be' with regard to the feature/indicator	Input/Initiative that would move the city from its current status to Advanced status (Scenario 4: Column G)
24	Safety and security	A Smart City has high levels of public safety, especially focused on women, children and the elderly; men and women of all ages feel safe on the streets at all hours. (Guideline 6.2)	The city has low levels of public safety - most groups of residents feel insecure during most parts of the day in many parts of the city.	The city has medium levels of public safety - some more vulnerable groups feel insecure during some points of the day and in some parts of the city	The city has high levels of public safety - all citizens including women, children and the elderly feel secure in most parts of the city during most time in the day.	The city has very high levels of public safety - all residents feel safe in all parts of the city during all hours of the day.	3	<p>1. The city has very high levels of public safety - all residents feel safe in all parts of the city during all hours of the day.</p> <p>2. 35 CCTV cameras are installed in the city at various locations.</p>	4	<p>1. CCTV coverage of the whole city.</p> <p>2. Accident Management Portal.</p> <p>3. Incident Reporting Portal for the whole city.</p> <p>4. Emergency Response system for the whole city.</p>

LOCATION OF ABD IN PASIGHAT

ABD Salient Features

- Highly conducive topography.
- 2.2Km of Siang River bounding the site adds serene dynamism.
- Innate Ethnicity and cultural diversity.
- **Benefits 64% population in just 35% area.**
- Diversified economic base
- High concentration of mixed-use and Public semi public zone.
- Walkability

TOTAL AREA (ABD)- 961 Acres

Retrofitting Area

- ❖ Area = 823 acres
- ❖ Govt. land on lease to Private
- ❖ Population = 12926
- ❖ Density = 38 ppha

High Region Retrofit + Redevelopment

- ❖ Area = 138 acres
- ❖ Govt. owned land
- ❖ Population = 2639
- ❖ Density = 47 ppha

ABD Interventions

KORÉ MATGO LÉMO - Old Market Area 1

- Façade Improvement
- Provision of Smart Parking
- Pedestrian Zone
- Intelligent Street Lighting system
- Haat Bazaar
- Vending area
- Organised area
- Sitting area
- Public Toilets

2 SIANG Riverfront Development

- Pathways and Cycle track along Bund
- Silt dredging through bunding of river
- Illumination along river banks
- Flood protection wall
- Social Kiosks
- Hospitality zone

3 Existing open /Green space Upgradation

- Rain water harvesting
- Recreation space enhancement
- City recreation space
- Open Gym

Squatter Redevelopment 4

- Shelter provision
- Provision of water ,sanitation and access to housing
- Community centre
- Open/green spaces
- Provision of street light
- Community facilities

Administrative Complex 5

- Administrative Building
- Government offices
- Amenities parking
- Retail spaces

Commercial District 6

- Retail space Offices Town Club, Hospitality Zone (Hotels , Restaurants , Entertainment spaces)
- Handicraft village.

KUMNÉ BÉLI Housing Project 7

- Employee Housing
- Private housing
- Amenities

Retrofitting

Transforming high region to New Mixed Used Development

MATGO YIJONG - "Market Avenue" 10

- Shade Trees Arcades
- Street Furniture
- Designated Multi-use Vending Zones
- Active Retail Frontage.

DENI KORÉ YITGO Green Business Zone 9

- Horticulture and Agro-Based, Cane and bamboo Products , Weaving and handloom activities, Trade facilitation center
- Cold storage
- Warehousing

TUMI-LONMO DUMBANG Institutional core 8

- Specialty Hospital
- Skill development Centre
- Professional College

Smart City
MISSION TRANSFORMATION

SMART CITY PASIGHAT

Market area Retrofitting

Key Features

- ① Open Plaza(4.2 Acre)
- ② Organised space for vendors
- ③ No vehicle Zone
- ④ Façade Improvement (Length 336 m)
- ⑤ Recreation Space
- ⑥ WiFi Hub
- ⑦ Junction improvement
- ⑧ Landscaping and Urban design
- ⑨ Smart Parking (2 Numbers)

BENEFIT TO PEOPLE

- ❖ Clean & organised Market
- ❖ Designated vending zones.
- ❖ Ease of trade
- ❖ Reduce traffic congestion
- ❖ Reduce carbon emissions
- ❖ Pedestrian Friendly

Sustainable Public Spaces

Riverfront Development

Upgradation of existing Recreation space and Fish pond

Key Features

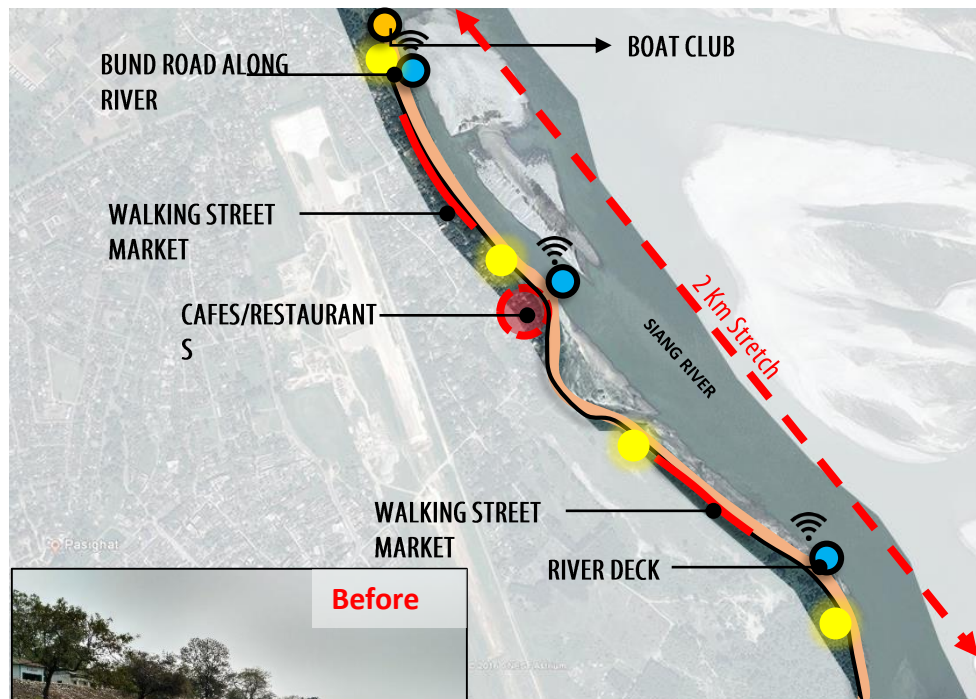

Key Features

- 1 Important tourist destination
- 2 2 Km of Riverfront Promenade development
- 3 11 Km of Road upgradation with Cycle Track
- 4 Nature watch
- 5 2 Km Flood of protection wall
- 6 4 Social Kiosks
- 7 1 Boat Club

- 1 Rain water harvesting
- 2 City Recreation Space
- 3 1 Km of Pathways with Cycle Track
- 4 1 Open gym space
- 5 Pond Rejuvenation
- 6 Public amenities
- 7 3 Cafes/Restaurants
- 8 2 Kids Playing area

BENEFIT TO PEOPLE

- ❖ Reconnecting people with life rejuvenating river Siang
- ❖ Walkability
- ❖ Safe places to play
- ❖ Digitally activated public realm with surveillance.

- BUND ROAD ALONG RIVER (EXISTING)
- BUND ROAD ALONG RIVER (PROPOSED)
- RIVER DECK
- CYCLE TRACK
- HOSPITALITY ZONE
- HIGH MAST
- FREE WIFI

ABD Mobility and Utility Enhancement

Mobility Enhancement

Cycle Tracks 200 Bicycle Track 11 Km
20 Sharing Booths

Junction Improvement Geometric Improvements of 3 Junction

Parking Proposed 7 Surface Parking of 500 ECS

Signalized Junction Proposed 6 junctions with adaptive traffic control strategy in which traffic signal timing changes, or adapts, based on actual traffic demand

Smart Road 35 Km Removal of encroachments and street retrofitting by providing space for pedestrian and cyclists and Underground Cabling

Utilities Enhancement

Sewage and Sanitation

- Provision of Bio Toilets at Public Places
- Proposal for Sewage system

Drainage

- Bioswales along major roads

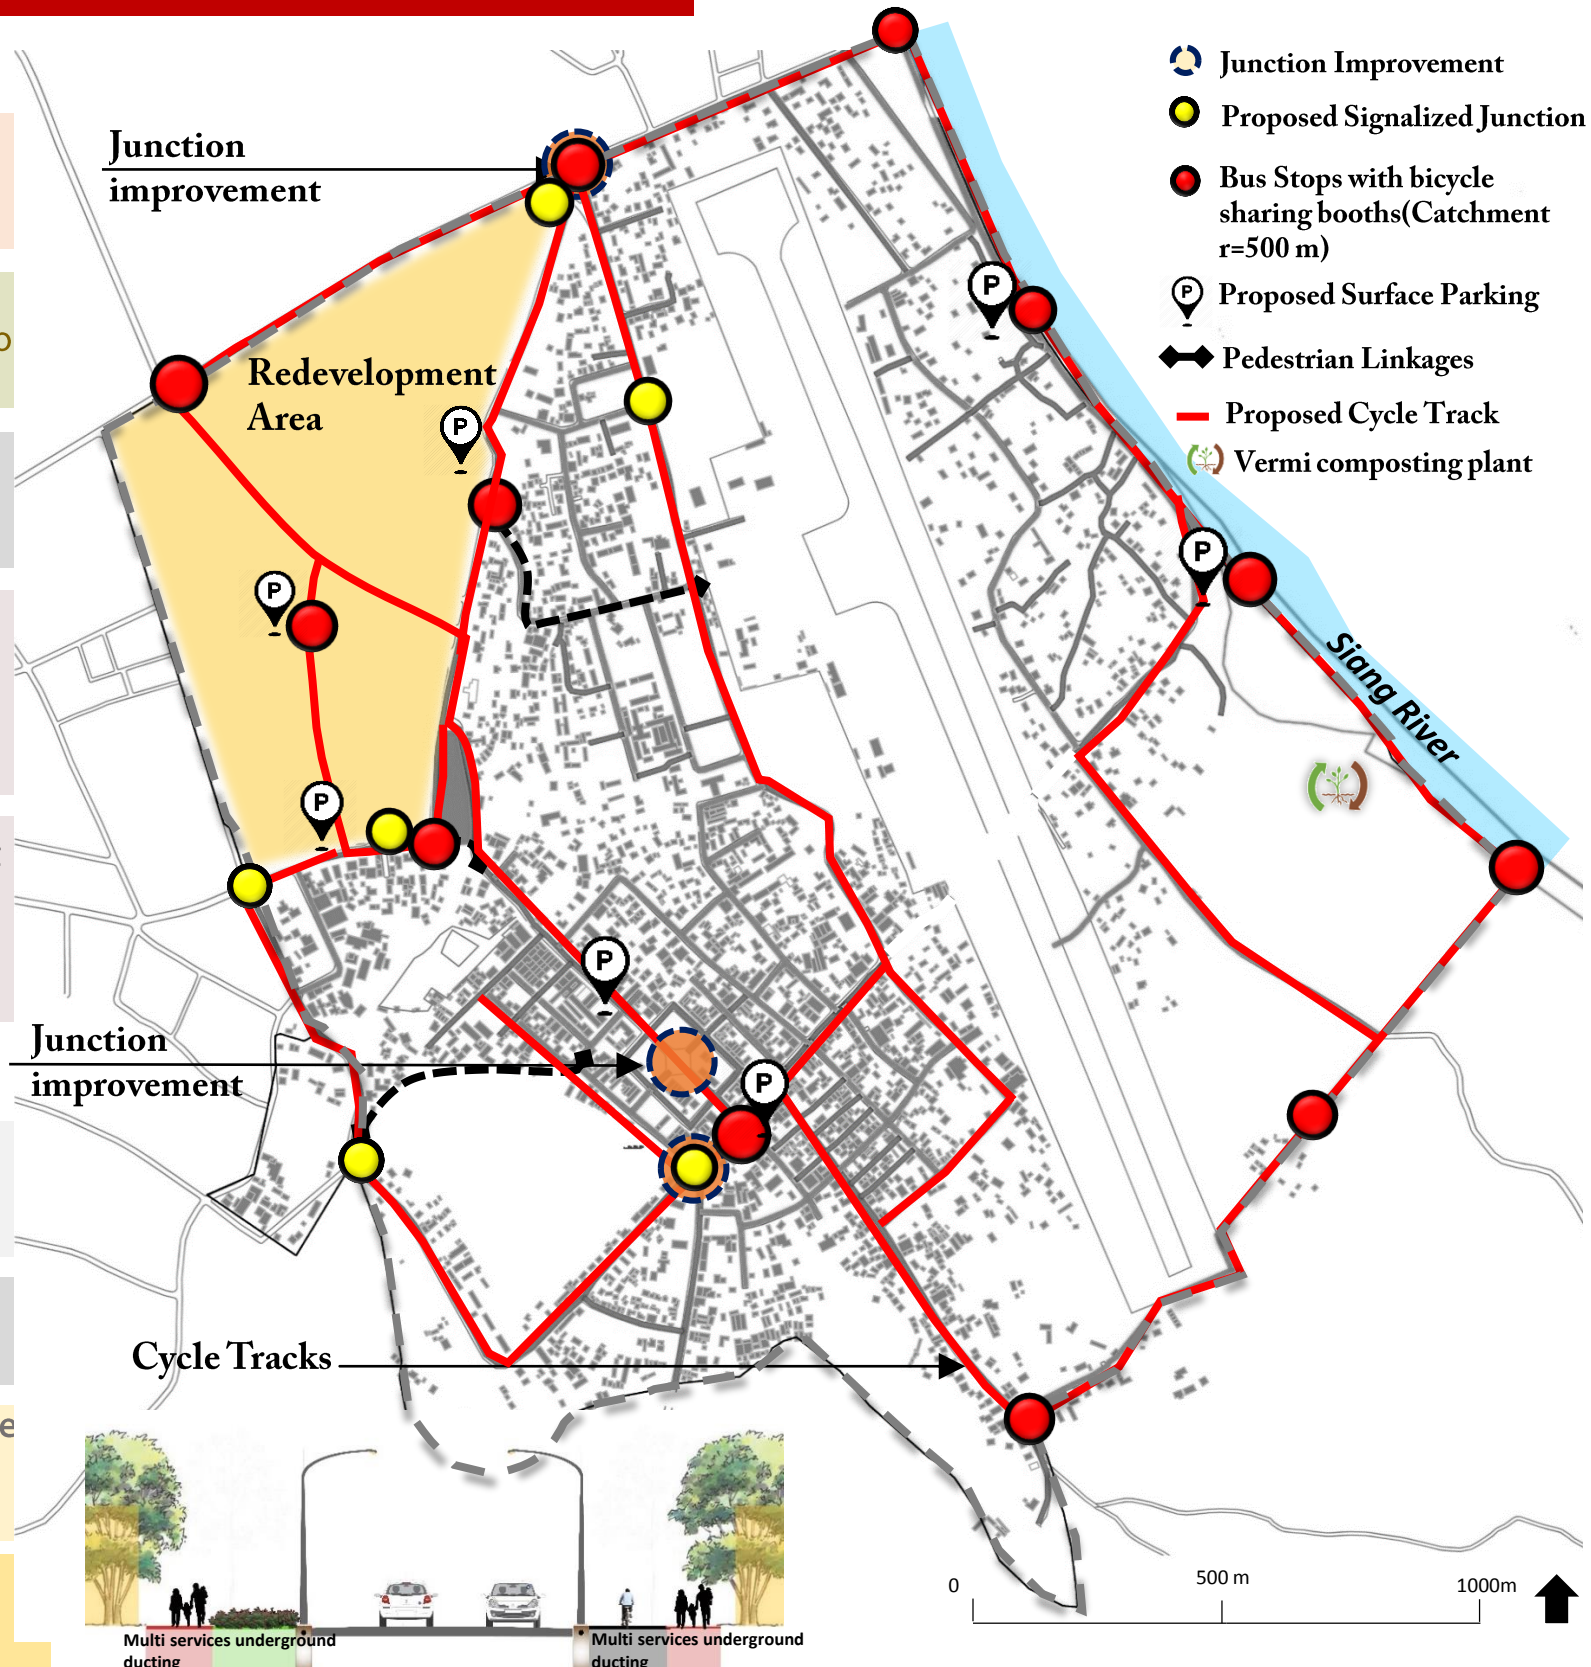

Solid Waste

- GPS enabled waste collection vehicle
- 2Bin segregation dustbins
- Vermi- composting plant

Smart Utility

- Smart street light(LED with display panel)
- Multi-services underground ducting

Pasighat Smart City

December 2016 | [Bhaskar Karmakar](#) | [Pasighat](#)

With so much delay in release of time bound funds, it is worth adding here that people of Pasighat have now started feeling that there lacks political will to let Pasighat become a Smart City. Even rumours are doing rounds that funds meant for Pasighat Smart City preparation is knowingly and willfully delayed so that preparation can't be made suitably, which if true is very unfortunate.

The **Pasighat City** has been shortlisted as one of the 98 smart cities under Ministry of Urban Development (MoUD) 'Smart City Mission'. After completion the first phase of Smart City Challenge it has been selected in the list of 98. Smart city will lead to economic growth and employment generation which will benefit the citizens immensely. Smart solutions using ICT will help in reducing cost of public services like water supply, electricity etc. Initiatives like e-city will definitely help citizens in saving their time and money as the entire citizen to government communication and grievance redressal can be made online. All this will lead to considerable savings on part of individual citizens in all strata of the society. There will be major indirect benefits due to improved health and education infrastructure also. On the other hand user charge collection on services like parking and property tax collection will partially increase the cost of living.

UW: Which locality/ areas are you considering for Smart City Development (of Retrofitting/ Redevelopment/ Greenfield)

DS: We are considering High region area in which all government offices and houses are located for redevelopment and Market and surrounding high density areas like Banskota for Retrofitting.

UW: Where does your city stand amongst the 100 Selected Smart Cities? And why do you think your city should come in the first 20?

DS: If you consider the level of citizen engagement and participation, Pasighat with population of 24000 stands in Top 20. Pasighat which is strategically located town in Eastern Arunachal Pradesh is transit point for all border districts in Eastern Arunachal Pradesh. Better Road, Rail and Air connectivity augurs well for the development of Smart City. Further natural beauty of Siang river and down tilt mountains of Arunachal Pradesh hold tremendous potential for development of Tourism hub in Pasighat.

Winning Smart City challenge would ensure good life to the people by providing them affordable access to health, education, water, sanitation, electricity and tourism, asserted the DC.

MEO (PMC) cum Smart City Officer Ainstein Koyu while seeking citizens' participation stressed on team spirit and urged all to brace up the upcoming challenge. He informed that under PAN City initiatives, solutions based on priorities would address issues of solid waste management, sewerage system and augmentation of drinking water supply.

We need to work on the gaps identified by Govt of India to improve upon the proposals, stated Koyu and urged the dignitaries to take part in the discussion page on MyGov portal in big numbers and contribute their best suggestions. Urban Planner of Voyant Solutions, Jay Krishna presented a vision plan through power-point presentation. (DIPRO)

When asked about the preparation for 3rd round competition this time and how the team Smart City is making ground work to rectify the previous errors, Municipal Executive Officer, PMC, Ainstein Koyu said, the preparation this time is good with the best effort put in by the new consultant 'Voyants Solutions Pvt Ltd.

"I can't say anything about the difficulties faced in the preparation of Smart City proposals for Pasighat by earlier MEOs, but in my case, yes, we are managing the resources with much limitation and constraint for this 3rd round preparation", added Koyu.

Another Smart City Core Committee member Dr Nami Darang, an assistant professor, informed that they are managing the requirements with their sources whom (shopkeepers) they know well from the market for any needs of item. The cash awards for the winners of Smart City marathon race held on Feb 12 was also managed jointly by the contribution of MLA Pasighat East, Kaling Moyyong and Chief Councilor, PMC, Kaling Doruk, informed another source.

According to an insider from PMC and the team Smart City, several financial liabilities are already overburdened with the management team as payout are yet to be done to the previous consultant, credit rating agency and other parties hired and used in the entire process of the preparation in the 1st and 2nd round preparation.

Asked for his comment on the delay in fund release, Moyyong said that he along with Chief Councilor, PMC had met Chief Minister and Chief Secretary as well for early release of the funds. He, however, said the PMC chief would be in the right position to speak on the present status of funds and its delay.

PMC Chief Councilor Kaling Doruk said that he is hoping for the funds to be released shortly. However, to make the 3rd round preparation successful, Doruk appealed all the team members to work untidely and dedicatedly without any gap between the team Pasighat Smart City.

On the part of consultant team, J Krishna, Fahad and Kriti, who are camping in the town with full preparations, said that Pasighat is a very nice place bestowed with all requirements and it will surely

Centre attention drawn on inclusion of Pasighat in Smart City-II

Centre attention drawn on inclusion of Pasighat in Smart City-II
ITANAGAR, Sep 19: Lok Sabha MP Ningong Ering while hailing the Union Urban Development Ministry on selection of Pasighat for the Smart City Project has drawn the attention of Prime Minister Narendra Modi for the Arunachal's oldest town's inclusion in the Centre's list of Smart cities, which, he said, is long overdue now.

In a communiqué to the Prime Minister, Ering said, "Pasighat, widely known as the gateway to Arunachal Pradesh has tremendous potential to expand and provide sustainable & inclusive growth in the region. Located strategically on the banks of river Siang near the China border, the city if developed in a right way can become focal point for the government's Act East Policy via North East."

In support of his assertion, a concerned Ering said, "China claims on Arunachal Pradesh territory and even a full scale dam construction is going on in Tibet area which may prove very fatal for Arunachal region. Even due to Chinese intervention, we won't be able to draw investments from the likes of ADB, World Bank and MICA."

He went on to add saying "hence, as promised by you earlier during your Arunachal visit, momentum and energy can be provided to our region by helping Pasighat develop not only as a smart city but as a facilitator and enabler of human development and concrete international affairs."

Stating that the critical factors of infrastructures like roads, railways, waterways and airways are being developed and will soon become arteries of transportation and communication, the MP opined, "Simply put, the sooner Pasighat is developed as smart city the sooner the state of Arunachal Pradesh will see the ways of more development. Smart city won't only bring good life to the people but also provide them with affordable and access to health, education, water, sanitation, electricity etc."

THE FINANCIAL EXPRESS article snippet: Govt unveils smart cities list: 13 cities from Uttar Pradesh, 3 from Bihar included. Here is the list of states and number of cities that have been nominated by the government: Andaman and Nicobar Islands 1 (Port Blair), Arunachal Pradesh 3 (Vishakhapatnam, Tirupati, Kakinada), Assam 1 (Guwahati), Bihar 3 (Muzaffarpur, Bhaugapur, Biharsharif), Chandigarh 1, Chhattisgarh 2 (Raipur, Bilaspur), Dadra and Nagar Haveli 1 (Silvassa), etc.

Pasighat gears up for 3rd round Smart City Challenge

February 10, 2017 | [Home](#), [Local](#)

Pasighat gears up for 3rd round Smart City Challenge PASIGHAT, Feb 9: Pasighat Smart City office is on its peak preparing to take part in third round of Smart Cities Challenge. With renewed vigour, it has been organizing series of meetings seeking suggestions from citizens and other stakeholders to rectify proposals by improving the deficiencies to win the third round challenge.

Meanwhile, a stakeholders' meeting was held today at the Siang Hall under the chairmanship of Deputy Commissioner Tamiyo Tatak to chalk out Smart City proposal and hold discussion on checklist. The DC advised PMC and consultants of 'Voyants Solutions' to adopt better strategies for present and future development projects and fill the gap between available resources and demands. He exuded confidence that Pasighat would secure its position in the third round challenge.

Tatak further directed the head of offices to appoint nodal officers so that they could share information and update the Smart City Mission Officers on developmental issues of their respective department.

Infrastructure like roads, railways, waterways and airways are being developed and will soon become arteries of transportation and communication, and with developed transportation, Pasighat could create many industrial hotspots.

Mission Smart City: Pasighat misses bus in 1st phase, gears up for 2nd

March 3, 2016 | [Archive](#) | [No comments](#)

Mission Smart City: Pasighat misses bus in 1st phase PASIGHAT, Mar 2: After failing to secure its place in the first phase of Smart City project, Pasighat is gearing up for the second phase of the Govt programme under the newly joined Municipal Executive Officer (MEO) Rahul Singh with renewed vigour.

On January 28, when Union Urban Development Minister Venkiah Naidu announced the name of 20 cities, who made it to the first phase as the cut off mark set by the Union Ministry was 54, while Pasighat missed the bus with 52.5 marks in the first list. However, the centurion town has been provided second chance as it is nominated as one of the 23 First Track cities on the basis of the Smart City proposal, submitted in round 1 under the Smart City Mission.

The MEO while holding his first meeting with DDF Consultant (as part of the second phase) in his office chamber and discussed as to why Pasighat lagged behind in the first phase and the way and means to upgrade the smart city proposal that has to be submitted before April 15 next.

Non-release of allotted funds a stumbling block for preparation of Pasighat Smart City proposal

February 16, 2017 | [Archive](#) | [No comments](#)

Maksam TAYENG PASIGHAT, Feb 15: The centurion-old town of the State, Pasighat, having all the communication lines in proper place like road, waterways, airway (service to be started soon) and railway connection (in pipeline), was selected to be among top 98 cities from across the country during September 2015 by the Ministry of Urban Development, Govt. of India.

Under the Smart Cities Mission, the short-listed towns/cities were allocated Rs 2 crore each by the concern ministry for preparation of master plan or detailed project report. But interestingly, Pasighat didn't receive the allotted funds till today even after passing of around one and a half year.

Earlier, it was learnt from certain sources that the delay for release of funds for preparation of Smart City proposal for Pasighat was due to the tussle between departments of Urban Development & Housing and Town Planning and Urban Local Bodies as to who would be the implementing agency. But as per informed sources, even after finalization of TP & ULBs would be the nodal agency to oversee the affairs of Smart City execution, fund is yet to reach the Pasighat Municipal Council to meet the serious financial need for preparation of 3rd round race which is underway at the moment.

SCO completes survey on 'Area Based Development Site'

March 3, 2017 | [Archive](#) | [No comments](#)

SCO completes survey on 'Area Based Development Site' PASIGHAT, Mar 2: Pasighat Smart City Office (SCO) completed survey on 'Area Based Development Site'. Official sources said that Pasighat is determined to get the smart city project by focusing on retrofit and redevelopment of the existing city by addressing urban mobility, tourism, heritage, economy, environment and smart applications etc.

Notably various activities were carried out by the office to assess the needs and aspirations of the citizens. SCO adopted retrofitting and redevelopment models on the basis of citizens' consultation/public polls both online and offline that would benefit the city dwellers.

A team comprising of Md Fahad Shahab (Voyant Solutions), Dr Jayanto Peme (Core committee member) and Tabom Tamut (Asst Town Planner) surveyed re-development area, while Krati Varshney (Voyant Solutions), Tani Taloh (Asst. Town Planner) and Dr Nami Darang (Core committee member) completed survey in retrofitting area and submitted reports to SCO. These will be evolved and compiled into a revised comprehensive proposal to be forwarded by the SCO to the govt for further submission to the Union Ministry of Urban Development shortly.

COMMISSIONER TALKS WITH URBANA WORLD ON THE INDIAN SMART CITY CHALLENGE. Urbana World | November 25, 2016. Deepak Shinde, Municipal Commissioner, Pasighat spoke to Urbana World on what opportunities the Mission holds for Pasighat. Following is the transcript of the interview: UW: What according to you is a smart city? DS: A city that listens and responds positively to its citizens. UW: This is the first time government is organising cities challenge for deploying of funds for urban development of India. What is your opinion on it? DS: I am optimistic about the initiative...

He told the consultants that as per the feedback of the panel of experts, the upgraded proposal should incorporate a thorough SWOT (Strength Weakness Opportunity Threat) analysis. In particular, the "Weakness and Threat" are to be identified, prioritized and plans to be devised to overcome in consultation with its citizens and other stakeholders. Giving a clarion call to the citizens, the MEO called for active and massive participation in the upcoming venture, urging them to share valuable suggestions through mygov.in portal, citizen awareness campaigns, radio talks and various competitions etc to secure better marks in the 2nd phase.

Singh instructed the Smart City officer Ainstein Koyu (EAC) to conduct the first interaction cum consultative meeting with the earlier constituted team of officers and staff on later part of this week to chalk out final and upgraded plan/proposal, needed for the 2nd round. (DIPRO)

the start of Smart City Week

Smart City Week

Correspondent

PASIGHAT, Feb 12: As part of speeding up the third round preparation for the Smart City contest the Pasighat Municipal Council in association with the district administration organized a marathon race here this morning marking the beginning of Smart City Week which will end on Feb 18 next.

The marathon race which drew overwhelming response from all walks of life including students and representatives from civil societies was flagged off by local MLA Kaling Moyyong in presence of PMC chief councillor Kaling Doruk, MEO Ainstein Koyu and representatives from Pasighat Smart City Consultants.

In male category, Maktem Modi, Kaling Tamin and Kamin Miyu won the 1st, 2nd and 3rd prize respectively. Yabang Tali, Olak Moyyong and Olak Nopi bagged the 1st, 2nd and 3rd prize in female section.

MLA Moyyong, chief councillor Doruk and ABKWW president Yalem Taga Burang gave away the prizes to the winners.

Meanwhile, the people of Pasighat are also gearing up to participate in the public poll by filling up Pasighat Smart City Public Poll questionnaires. Talking about the third round preparation, Koyu said that PMC is quite satisfied seeing the peoples' turn up and every effort is being made to qualify in this round.

construction of drainage, parking plot, other civic amenities etc. to which CM has responded and has directed the Chief Secretary to call a meeting of PMC along with TP & ULBs. The PMC team also called on Minister, UD & TP, Nabam Riba, Minister, Textile & Handicraft, Tamiyo Taga, Minister RD & Panchayati Raj, Tanga Byaling, Secretary, UD, TP and ULB, Director, TP & ULB and sought their active support in the preparation for Smart city race. It is said that an amount of Rs. 2 crore was released from MoUD, Govt. of India for Smart City campaign, but the sanctioned amount was never sent to Pasighat from concern department.

He expressed confidence that the urban landscape of Pasighat being connected with road, rail, air and waterways can be favourable to make the centurion town better for living and an effective engine for economic growth and revenue generation. Municipal Executive Officer Ainstein Koyu also spoke at length on "Smart City Proposal" (SCP), and asserted that the SCP would be citizen-oriented and the bottom-up planning based on citizen participation would be evolved after extensive consultations with them. According to Koyu, the central government authorities are closely monitoring all developments broadly assessed for the extent and quality of citizen participation and their economic and environmental impacts. These would be evaluated in the third challenge, which is tougher than the earlier competitions, told the MEO, while seeking full cooperation to translate the mission into reality. (DIPRO)

Centre attention drawn on inclusion of Pasighat in Smart City-II

September 20, 2016 | [Archive](#) | [No comments](#)

Centre attention drawn on inclusion of Pasighat in Smart City-II ITANAGAR, Sep 19: Lok Sabha MP Ningong Ering while hailing the Union Urban Development Ministry on selection of Pasighat for the Smart City Project has drawn the attention of Prime Minister Narendra Modi for the Arunachal's oldest town's inclusion in the Centre's list of Smart cities, which, he said, is long overdue now.

In a communiqué to the Prime Minister, Ering said, "Pasighat, widely known as the gateway to Arunachal Pradesh has tremendous potential to expand and provide sustainable & inclusive growth in the region. Located strategically on the banks of river Siang near the China border, the city if developed in a right way can become focal point for the government's Act East Policy via North East."

In support of his assertion, a concerned Ering said, "China claims on Arunachal Pradesh territory and even a full scale dam construction is going on in Tibet area which may prove very fatal for Arunachal region. Even due to Chinese intervention, we won't be able to draw investments from the likes of ADB, World Bank and MICA."

He went on to add saying "hence, as promised by you earlier during your Arunachal visit, momentum and energy can be provided to our region by helping Pasighat develop not only as a smart city but as a facilitator and enabler of human development and concrete international affairs."

Stating that the critical factors of infrastructures like roads, railways, waterways and airways are being developed and will soon become arteries of transportation and communication, the MP opined, "Simply put, the sooner Pasighat is developed as smart city the sooner the state of Arunachal Pradesh will see the ways of more development. Smart city won't only bring good life to the people but also provide them with affordable and access to health, education, water, sanitation, electricity etc."

Bid to boost 'race' to Smart City

February 28, 2017 | [Archive](#) | [No comments](#)

Bid to boost 'race' to Smart City PASIGHAT, Feb 27: In an effort to augment the process of online activities, Pasighat Smart City Mission office headed by MEO Ainstein Koyu set up camp office at Gidi Noko (general festival ground) here on Feb 25 and 26 during Aiyi Lipang festival of Mishim community to encourage public participation under the Smart City citizen consultation through online registration, followed by public polls on area based development and pan city components, comments and suggestions for improvement of the city, which would ultimately include in the Smart City Draft Proposal for Pasighat.

The office also catered offline version of the same under which forms, questionnaires were distributed among the huge gathering and their suggestions and opinions were collected putting suggestion boxes at the venue.

The Smart City office received overwhelming response from the citizens. People were found curious of the activities to see Pasighat become one of the smartest cities in the country. The two days camp witnessed participation of Lok Sabha MP Ningong Ering, MLAs - Kaling Moyyong and Lombo Tiyang, Deputy Commissioners Tamiyo Tatak, PMC chief councillor Kaling Doruk, district councillor Kalpi Darang, councilors, members of Adi Baane Kebang and Mishim Baane Kebang, NGOs and student organizations. (DIPRO)

Centre includes Pasighat in East Siang for Smart City Mission PASIGHAT, Nov 22: After missing out the 1st and 2nd phases of Smart City Mission (SCM) race in recent past, the Pasighat Municipal Council (PMC) is now gearing up for the 3rd round of competition, expected to take place in March 2017. "Tightening the belt to get the 'Smart' berth this time around, PMC has already started mobilization activities after drawing lessons from its two failed attempts where Pasighat was expected to make it to the list of Smart Cities in the 1st phase on the ground of being in border state, virgin location with sizable population etc.

If selected Pasighat to be smart city, then there should be proper drainage system, Drinking water system is one of the main problem instead of mighty siang river flowing nearby, which can be improve by tapping water from siang river supply. Electricity is also another big problem which can be improve by constructing 23 mini hydel on the tributaries of siang river. Beer bar or dance permit should be ban.All the haphazardly allotted land should cancelled to facilitate proper sector road.

**OFFICE OF THE PAIGHAT MUNICIPAL COUNCIL
EAST SIANG DISTRICT:: PASIGHAT
ARUNACHAL PRADESH**

No. PMC/Meeting - 02/2015-16-2609

Dated 1st March 2017

RESOLUTION NO. 1

EXTRACT OF MINUTES OF THE MEETING OF PASIGHAT MUNICIPAL COUNCIL, EAST SIANG DISTRICT, PASIGHAT ARUNACHAL PRADESH WHICH WAS HELD AT THE COUNCIL HALL OF THE PASIGHAT MUNICIPAL COUNCIL (PMC) ON 1st MARCH 2017.

Preamble:

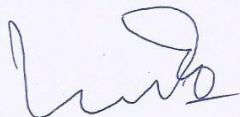

Pasighat is competing in the III Round of Smart City Competitions to upgrade its Smart City Proposals to be submitted to the Ministry of Urban Development (MoUD), Government of India on or before 31st March 2017. For receiving funds from Central government, State government and other sources for implementation of the selected projects, Smart City Mission Guidelines mandate that all Smart City proposals be prepared as per the mission guidelines. Acting as nodal office, State Town Planning & ULB Department selected consortium of M/s Voyants Solutions Pvt. Ltd. Gurugram (Haryana) as consultants for preparing the Smart City proposal for the ongoing III Round of the competitions.

A copy of the proposal along with Financial Plan is placed before the house for adoption.

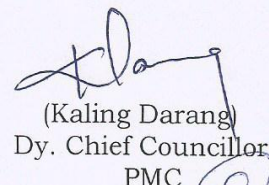

Following Resolution were passed:

1. PMC has finalized the Area Based Development site of 940 Acres consisting Redevelopment Area of 134 Acres and Retrofitting Area of 806 Acres (Option B) on the basis of stakeholders' and citizens' consultations/polls conducted offline as well as online in Mygov.in.
2. PAN City initiatives have also been finalized on the basis of stakeholders' and citizens' consultations/polls conducted offline as well as online in Mygov.in to be incorporated in the Smart City Proposal.

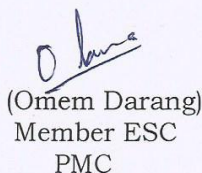

PMC has accordingly approved the above.

EAST SIANG DISTRICT::PASIGHAT
ARUNACHAL PRADESH**

RESOLUTION NO. 02

**EXTRACT OF MINUTES OF THE MEETING OF PASIGHAT MUNICIPAL COUNCIL
EAST SIANG DISTRICT, PASIGHAT ARUNACHAL PRADESH HELD AT THE
COUNCIL HALL OF THE PASIGHAT MUNICIPAL COUNCIL (PMC) ON 25TH
MARCH,2017**

No. PMC/Meeting-02/2015-16

Dated 25th March 2017

Preamble:

The Pasighat Municipal Council (PMC) has been selected to participate in the Round 3 of the Smart City Mission under the Ministry of Urban Development (MoUD) after elimination from the 2nd Round Smart Cities Competition. For receiving grants from Central Government and funds from State Government/other sources for implementation of the projects and execution of projects, Mission mandates that all the Smart City Projects shall be executed by Special Purpose Vehicle (SPV) - A limited Company, specifically incorporated for this purpose. The SPV shall act as nodal agency for execution of projects having necessary powers and mandate to execute the projects.

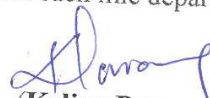

Following Resolutions were passed:-

1. "It is hereby resolved that Pasighat Municipal Council agrees to establish a Special Purpose Vehicle (SPV) to be named - " Pasighat Smart City Development Corporation Limited" or any other suitable name, incorporated under the Companies Act, 2013 at the city level, in which the Govt. of India & State of Arunachal Pradesh and Pasighat Municipal Council shall be the promoters having equity shareholding as per the SCM Guidelines."
2. "It is further resolved that SPV will plan and appraise projects; arrange and release funds; Implement, manage, operate, monitor and execute the Smart City area based and Pan City based projects as envisioned in "*Smart City Proposal*" duly incorporating the desire of citizens of Pasighat in collaboration with Pasighat Municipal Council .
3. "It is resolved that SPV will function under guidance and control of Board of Directors comprising eminent personalities and professionals drawn from the State and nominees of Central Government, State Government and Pasighat Municipal Council. Board shall also have independent Directors as required under the law. At no point of time Maximum number of Directors shall not cross 15. Divisional Commissioner/ Collector /Municipal Commissioner /CEO of Development Authority as decided by the State Government shall be the Chairperson of the Board under whose guidance and supervision, board will take appropriate decisions in the interest of the Mission."
4. "It is resolved that" SPV shall have full time CEO appointed by State Government with the approval of MoUD who shall be responsible for day to day functions for the SPV. CEO shall be appointed as Managing Director of the SPV and report to the Board of Directors.
5. "It is resolved that SPV may raise further capital by offering minority stake to the financial Institutions and private players for raising resources for the projects on PPP.

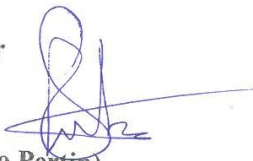

6. "It is resolved that initial Authorized share Capital of the SPV shall be Rupees 400 Crores to be increased in subsequent years depending upon the projects Progress and funds flow situation."
 7. "It is resolved that all grants received from central Government and equity contribution from the state Government and Pasighat Municipal Council as per Mission Guidelines and funds raised for the project shall be handled by the SPV"
 8. "It is further resolved that CEO of the SPV under guidance of the Board shall be responsible for hiring well qualified and experienced team drawn from the field of engineering, ICT, Infrastructure, Finance and secretarial and shall execute projects. CEO of SPV shall be responsible for running of the SPV on self sustaining mode inviting investments from private parties and raising debt from financial Institutions for implementation, managing, operating and Monitoring Smart City -Area Based and Pan City Based projects, appointing consultants and handholding agencies for preparing detailed DPRs, Tender Process, and Project Monitoring support."
 9. "Execution of Projects proposed in the SCP is full of challenges requiring high degree of skill, professionalism, quick and time bound decisions by CEO and other Officials of SPV. Hence it is resolved to provide greater autonomy and independence to the SPV by delegating following powers to the SPV with respect to the Smart City Projects:
 - a. Rights and Obligations of the Pasighat Municipal Council.
 - b. Decision making powers in consultation with the Pasighat Municipal Council under the Municipal Act 2007 and Arunachal Pradesh Government Rules.
 - c. Matters that require the approval of the State Government shall be delegated to the High Powered Steering Committee."
- "It is further resolved that all line departments and institutions shall work under the directions of the SPV for execution of Area Based and Pan City Based Projects. SPV shall appoint contractors, service providers, JV partners, PPP Partners, for projects falling under the Mission in consultation with Pasighat Municipal Council as per prescribed government rules and guidelines, release payments and also monitor the progress. Line departments shall provide all administrative, technical support and resources at its command to facilitate smooth execution of the Projects on basis of a separate agreement to be entered with each line department."

MEMORANDUM OF UNDERSTANDING

This Agreement is made at Pasighat on this 21st Day of March 2017 between Pasighat Municipal Council, having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Authority") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc., of the first part of agreement.

AND

ARUNACHAL PRADESH ENERGY DEVELOPMENT AGENCY. having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Agency") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc. of the second part of agreement.

Hereafter referred to collectively as 'Parties;

WHEREAS, Ministry of Urban Development ("MoUD") has launched Smart Cities Mission ("Mission") and shortlisted Pasighat City under Round III of smart cities challenge as potential smart city and Pasighat Municipal Council has prepared a Smart City Proposal ("SCP") for Round III of Smart Cities Challenge.

AND WHEREAS, in pursuance of MoUD guidelines on Smart City the Authority is mandated to incorporate a Special Purpose Vehicle ("SPV") for planning, designing, financing, implementing, operating and maintenance of Smart City Projects.

AND WHEREAS, the Authority will act as nodal organization for coordination on all matters relating to SCP and its implementation till formation of SPV for Pasighat Smart City.

AND WHEREAS, the Parties have had discussions on Pasighat City SCP including proposals on Area Based Development and Pan City solutions and have reached at an understanding on the following rules and responsibilities pertaining to smart city proposal implementation:

1. **OBJECTIVE OF MEMORANDUM OF UNDERSTANDING** - The objective of this Memorandum of Understanding (MOU) is to define areas of coordination and collaboration between the Authority and the Agency for planning, designing, financing, implementing, operating and maintenance of upcoming Smart City projects in Pasighat City under Smart City Mission.

2. **AREA OF COORDINATION AND COLLABORATION** - The areas of coordination and collaboration between the Authority and the Agency will be as following:

2.1 Parties will coordinate in areas related to planning, design, implementating, operating and maintenance as well as monitoring and coordination for Area Based Development as per SCP.

2.2 The Agency will provide necessary support to the Authority for undertaking project implementation for Area Based Development and Pan City proposals as per SCP.

Municipal Executive Officer
Pasighat Municipal Council
Arunachal Pradesh.

Project Officer
APEDA Pasighat

2.3 The Agency will endeavor to prioritize its development projects in line with SCP and to converge various policies, schemes and budgets accordingly.

2.4 The Agency will fast track any applicable approvals, licenses and permits for implementation of smart city projects.

2.5. Parties will consult each other and exchange necessary information for coordination and collaboration.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as on the day and year first above written.

**PROPOSAL OF SCHEMES/PROJECTS FOR SMART CITY
ON SMART CITY PLAN & PROPOSAL(SCP)**

Introduction:

Arunachal Pradesh Energy Development Agency, APEDA is the State Nodal Agency (SNA) of Ministry of New and Renewable Energy(MNRE), Govt. of India and looking after all the works in the Renewable Energy Sectors. There are tremendous potential to harness Renewable sources of energy in Arunachal Pradesh. The state has done significant works on harnessing renewable energy in the last nineteen years. In order to give a thrust to the Projects/programme related to any Renewable Energy Sources, the Govt. of Arunachal Pradesh has created an agency named and styled as Arunachal Pradesh Energy Development Agency (APEDA). The Agency had started functioning from 1st March`1997. Being a State Designated Agency(SDA) of Bureau of Energy Efficiency (BEE) for Energy Conservation in the State of Arunachal Pradesh, for Smart Energy, Saving Energy and for Energy Efficiency now the APEDA is taking up the LED Lighting System which is more efficient than Compact Florescent Lamp(CFL) and also taking up the 35% of energy saving in commercial buildings, APEDA has initiated to modify the National Energy Conservation Building Code and have come up with Arunachal Pradesh Energy Conservation Building Code (APECBC). In the field of Agriculture and for drinking water, the APEDA is taking up the Project like Solar Water Pumping Systems by using energy efficient and star rated motors. For Municipality and Local Civic Bodies, the APEDA is taking up the Projects like LED Street Lights, Roof Top Solar Power Plant on every Government Office Building, Solar Mobile Charger in every public places, Entertainment item like Children cum Energy Park and Solar Water Heating System in those place where hot water is required e.g. medical hotel etc.

2. Purpose:

Being the oldest place and preparation for Smart City in Arunachal

22/11/17
Project Officer
APEDA Pasighat

Pradesh needs an uninterrupted power supply. With the 6MWp Solar Power Plant, LED Based Solar Street Light and Roof-Top Solar Power Plant uninterrupted power supply would be available. After installation, the power requirements could be plugged from the proposed power plant and thereby save the electricity bill. Moreover, they will also serve as demonstration project of renewable solar energy to the people of the area and tourists. So the another main purpose is to demonstrate to the general public and all the stakeholders that the solar energy can be meaningfully used in the form of electricity and its use can reduce the use of fossil fuels like diesel and minimize the cost and global warming. The proposed solar power plant will also give a firsthand experience of installing, operating and maintaining a solar power plant in East Siang District, Arunachal Pradesh. The experience gain with this pilot project would form a basis for finalizing future strategy for establishing larger scale Solar Power Plant and dissemination of ideas about roof top SPV system on residential and commercial buildings. This would particularly help in supplementing day time peak load demands or night time emergency demand of the Pasighat Township in case of grid failure.

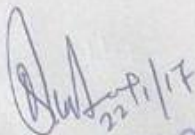

3. Benefits

Benefits of Solar Power Plant :

Stand alone Solar Photovoltaic systems are becoming increasingly popular worldwide. However, in Arunachal Pradesh the experience with such systems is negligible. As the cost of PV systems are approaching competitiveness with other conventional power, large scale use of solar PV power plants are envisaged in coming years.

Benefits of Solar Street Light:-

A. DIRECT BENEFIT TO THE PEOPLE: (i) The people will be benefited in terms of lighting facilities during the night and improvement in living conditions. (ii) Administration in the Township will improve and the people will be benefited in terms of better governance and curbing of anti-social activities.

22/1/17
Project Officer
APEDA Pasighat

to benefit in many ways as mentioned below.

1. The uninterrupted power supply will be ensured in the offices for smooth functioning.
2. Electricity bill will be reduced drastically and fund will be saved accordingly.
3. The D.G set will no longer be required in the offices and a lot of expenditure spent on diesel will be saved.
4. Quality of light will be improved.
5. Improvement in the working system and efficiency of the employees is expected to enhance.
6. Solar power is non-polluting. Solar power usage does not emit any greenhouse gases or harmful waste. So, the power plant will save enough amount of greenhouse gases and save our mother earth.
7. Solar power plant requires very little maintenance and lasts for many years. So, the running maintenance cost of the plant will be very less compared to other conventional systems/D.G set etc.
8. The government department in particular and people in general will have firsthand experience of renewable energy technology and help in using more renewable energy projects.
9. The power generated from the proposed solar power plant will replace power supply from the grid in case of failure, so the burden on conventional sources of energy/grid supply will be reduced.

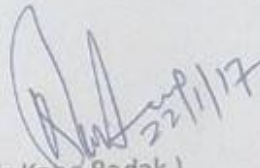

Objective:

This action plan is prepared keeping in mind that the dreams of Smart City will be fulfilled only when there is available energy input. The main aim of this plan is to provide energy supply in an accessible, affordable, accountable and in a reliable way by using Renewable Energy Sources for Energy Management in Smart City. Then the dreams of "Pasighat as a Smart City" will be fulfilled.

So, for Energy Management especially in the field of Renewable Source of Energy, the APEDA can take up the following schemes/project for preparing plans for Smart City in Pasighat, East Siang District, Arunachal Pradesh.

22/1/17
Project Officer
APEDA Pasighat

Sl.No.	Name of Project	Quantity	Cost	Total amount	Remarks
1	Solar Power Plant	6MWp	Rs 9 Crore/MWp	Rs 54.00 Crores	Total Land requirement 30 acres
2	LED Based Solar Street Light	300 Nos.	Rs 30,000/No.	Rs 9 Lakhs	The SSL will be installed in Township and in every Residential areas and it will also minimize the law and order problems in the city.
3	Roof-top Solar Power Plant	500 KWp	Rs 2.5 Lakhs/KWp	12.50 Crores	This Scheme is proposed for every HoDs office building to run the office works more smoothly. Capacity of each project will be decided in due course of time according to size of office building and their load demand.
4	Children Park cum Energy Awareness park.	1 No.	8.50 crores/No.	Rs 8.50 Crores	Especially for children and young people for entertainment and for public awareness about Renewable energy Sources. All the outdoor games like Boating System, Train, Swing, Merry-G-Round, Spiral Slide, Combination set, Elephant slide and many more including all exhibits items. Also there will be restaurant and Solar Coffee shop specially to attract young people. After completion of Project Revenue will be collected from visitors @ Rs 15.00 to Rs 20.00/head/visit and also there will be revenue from restaurant, solar coffee shop, boating system etc, definitely department will get benefits.

22/11/17

(Er.Kape Badak)
Project Officer Arunachal Pradesh Energy Dev.Agency
East Siang District ::(A.P)::Pasighat

Project Officer
APEDA Pasighat

B.BENEFITS FROM THE SCHEME: Solar energy is the energy which is obtained from the sun in the form of heat and electricity. The solar energy is collected through solar collector as heat and electricity is produced through solar panels/ modules.

Savings in electrical line losses:

Energy is lost in the transmission of power to the customer due to electrical impedance in the T&D system. If the total load doubles in the given system, losses increase by about four times.

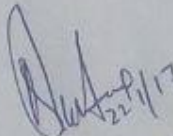

By locating the PV Generating system closer to the load, the current flow in transmission and distribution system can be reduced substantially thus reducing line losses.

Voltage Support:

The PV system will reduce the power drawn from Electricity Department grid and prevent the voltage drop when large power is consumed by air-conditioners etc. The system will also supply power close to unity power factor thereby improving the grid quality and increasing its capacity. There will be savings in cost of voltage stabilization equipment such as shunt capacitors with controlled switches. In rural remote locations, at the end of the distribution systems where the voltages are known to be very low due to over loading and undersized grids, the solar power generating system would provide voltage support to the grid by feeding power during the day when peak day time loads cause the grid to overload.

Social Benefits:

The increasing demand of electricity, the high price of oil and growing concerns for our environment are some of the several factors that force us to enhance the uses of alternative energy sources. Among varieties of renewable energy sources, solar energy is a sustainable alternative option that can be utilized in various ways and can be used for many applications. The energy and heat from the sun is free and unlimited which could be used without spending any resource. The 6MWp Solar Power Plant at, Pasighat in East Siang District of Arunachal Pradesh is expected

GOVERNMENT OF ARUNACHAL PRADESH
SECRETARIAT, PUBLIC HEALTH ENGINEERING & WATER SUPPLY,
ITANAGAR

SECTT/PHE(S)-74/2016

ORDER

Dated Itanagar the 29th March, 2016

The Governor of Arunachal Pradesh is pleased to accord an expenditure sanction not exceeding to Rs.160.00 lakhs (Rupees one crore sixty lakhs) only for "Providing Water Supply to Water stressed area of Pasighat Township of Jarko, Gumin Nagar, General Hospital, Pasighat under (SIDF)-2015-16" against the estimated cost of Rs1.60.00(Rupees one crore sixty lakhs) only during current financial year 2015-16 subject to availability of fund and observance of all codal formalities with the following

1. The expenditure by the executing agency during 2015-16 is restricted to Rs. 160.00 lakhs (Rupees one crore sixty lakhs) only subject to the existence of Budgetary/SIDF-2015-16, provision during financial year under the concerned Head of Account.
2. The project should be completed as per original scope and specifications and no revision of the estimate is entertained.
3. The fund should be utilized within specified time and strictly for the purpose for which it is sanctioned. No diversion of fund is allowed. There should be no time and cost over run.
4. The concurrence is subject to non-duplication with any other scheme. Any deviation would be responsibilities of the Department.
5. Construction of works and procurement of materials shall be made as per GFR.
6. The department shall deduct TDS of VAT on work contracts @ 12.50% leviable on taxable turnover of the work contract vide Ordinance No.TAX-64/2004/Pt Dtd.28/8/2009 OR if opted by contractors, as per new scheme of 4% on total turnover issued vide Notification No.TAX-28/2002/ Vol-II Dtd.31/8/2009 of department of Tax & Excise.
7. All codal formalities, all the provisions and conditions prescribed in GFR, DFPR, CPWD Manual etc, all the financial Rules and regulations, the guidelines and directives issued by the Govt. of India, Ministry of Finance, GOI, Administrative Ministry of GOI, CVC and Govt. of Arunachal Pradesh. In this regard from time to time should be followed in letter and spirit without fail.
8. This concurrence is also subject to the following of codal formalities and ensuring guidelines of State Government/GOI which shall squarely be responsibility of the department.
9. The execution of works/schemes/projects and procurement of items/materials, furniture's, etc and erection/installation of tents, stage, lightening, sound system and purchase of stationary items, printing materials, etc should be done strictly as per the provision of GFR, DFPR, CPWD Manual etc, all the financial Rules and regulations, the guidelines and directives issued by the Govt. of India, Ministry of Finance, GOI/Administrative Ministry of GOI, CVC and Govt. of Arunachal Pradesh in this regard from time to time. The process of tendering and competitive bidding should mandatory be followed and complied with as envisaged in the GFR, DFPR, CPWD Manual etc, all the financial Rules and regulations, the guidelines and directives issued by the Govt. of India, Ministry of Finance, GOI/Administrative Ministry of GOI, CVC and Govt. of Arunachal Pradesh in this regard.
10. All the conditions and guidelines prescribed by the Planning Department, Govt. of Arunachal Pradesh should be followed in letter & spirit without fail.
11. All the conditions and guidelines prescribed and specified by Ministry of DONER/NEC/Name of Administrative Ministry, GOI(as the case may be) shall be followed in letter and spirit without fail.
12. The expenditure is debitible to code 04- (Plan), against Major Head of Account "4215" (P) Capital Outlay on Water Supply & Sanitation, Sub Major Head-01-Water Supply, Minor Head-800- Other Expenditure Sub Major Head-(04)- scheme under SIDF, Detailed Head-00, Object Head - 53- Major works -(SIDF), Demand No 59.
13. Any payment to any person's shall be made with NOC from MD, Arunachal Pradesh Cooperative Apex Bank Ltd.
14. All the conditions stipulated in the concurrence endorsement should invariably be incorporated in the sanction order itself.

This issue with the concurrence of Finance Department vides their U.O. No. FIN(D)-1132 dated 28/03/16

ITANAGAR.-791111**

No. Sectt/PHE(S) - 43/2015

Dated Itanagar, the 26th October 2015

ORDER

The Governor of Arunachal Pradesh is pleased to accord Administrative Approval and Expenditure Sanction not exceeding Rs.497.50. lakhs (Rupees four crore ninety seven lakhs fifty thousand) only for providing Water Supply to Advance Landing Ground (ALG) at Ziro, Tawang, Aalo, Mechuka, Tuting, Pasighat, Wallon and Vijoyannagar under SPA (2014-2015)" against the estimated cost of Rs.500.00 lakhs, subject to restriction of fund as per availability during 2015-16 and observance of all codal formalities with the following stipulation:-

1. The validity of sanction is subject to the existence of Budgetary Support/AOP Provision during 2015-2016 Only under the concerned Head of Account.
2. The project should be completed as per original scope and specifications and no revision of the estimate is entertained.
3. The fund should be utilized within specified time and strictly for the purpose for which it is sanctioned. No diversion of fund is allowed.
4. The contingency charges are restricted to 2.50% against the scheme and another 0.5% fund provision for 3rd party monitoring should be kept by Department. Out of the contingency charge 1% is allowed to be use for the payment of water charges, power charges, land revenues and telephone bill..
5. The concurrence shall be subject to non-duplication with any other scheme. Any deviation would be responsibilities of the Department.
6. Any payment to any person (s) shall be made with NOC from MD, Arunachal Pradesh Cooperative Apex Bank Ltd.
7. Construction of works and procurement of materials shall be made as per GFR. Work executed as per approved concept paper.
8. The unspent amount/part payment of the financial s ending (i.e.March) for the schemes under CSS,TFC,NEC,NLCPR,etc. Shall be deposited into the civil deposit under Head of Account-8443-civil deposited-800.
9. As referred in Govt. Order No. DA/TRY/51/2013 dtd.04/09/2014,authorization for release of payment may be obtained from the Finance Department (Budget).
10. All codal formalities, all the provisions and conditions prescribed in GFR,DFPR,CPWD Manual etc.,the guidelines and directives issued by the Govt. of India, Ministry of DONER, GOI,CVC and Govt. of Arunachal Pradesh in this regard from time to time should be followed in letter and spirit without fail. This concurrence is also subject to the following of codal formalities and ensuring guidelines of State GOVERNMENT/GOI which shall squarely be responsibilities of the deptt.

The expenditure is debitale to the Head of Account "4215" (P) capital outlay on water supply & Sanitation, Demand No.59. Sub-Major-01 WS, Minor Head-800-other expenditure, Sub-Head-04 Detailed Head-00, Object Head-53 (Major Works)

MINUTES OF THE MEETING HELD BY THE SECRETARY (PHED) IN HIS OFFICE CHAMBER ON 16.06.06 AT 3.P.M.

A meeting was held on 16.06.06 at 1.00Pm in the office chamber of Secretary (PHED) to discuss how Assets Register can be maintained and also to discuss enhancement on water Tariff.

The following were present

1. Shri T. Norbu, Secretary (PHED)
2. Shri Geyum Padu, CE (PHED)
3. Shri Tomo Basar, SE (Circle Naharlagun)

After thorough discussion on maintenance of Assets Register other records in the Department and Enhancement of water Tariff, the following were decided for implementation by the department.

1. MAINTAINANCE OF CASH BOOK & ASSETS REGISTER: - The Secretary (PHED) took serious view that during his recent tour to Jang Sub-Division, under Lavang Division, he was told that the Jang Sub Division is not maintaining Cash Book and Assets Register. He sought clarification from the Department. Shri Geyum Padu, Chief Engineer and Shri Tomo Basar, Superintending Engineer (Naharlagun Circle) clarified that Cash Book and Assets Registers are maintained in all Divisions and Sub Division and they promised to look into this aspect. They also placed a modified Assets Register format to be maintained to up keep the Stores and revenue. The Secretary (PHED) has thoroughly gone through the modified Assets Register formats and accepted it and requested to give him feed back on the requirement of documents in Assets Registers formats by 1st week of July/06.

2. ENHANCEMENT OF WATER TARIFF: - The revision of Water charges has been approved by the Cabinet held on 30.05.06. The following revised rate will be applicable with effect from 01/06/2006.

Sl No.	Type of Water connection	Existing rates of Water charges	Proposed rates of water charges
1	2	3	4
1	New Water Supply connection	Rs. 1000.00	Rs. 2000.00 ✓
2	Private domestic consumer in Urban areas	Rs. 1000/P.m.	Rs. 100.00 /- P.m. ✓
3	Private domestic consumer in Semi Urban areas like other district, town, Sub Divisional towns, Circle HQs which are not yet declared as Urban towns by Govt. A.P.	Rs. 1000/Pm	Rs. 50.00/-Pm ✓
4	Consumers for commercial building	Rs. 500/tap/month	Rs. 50.00/tap/month ✓
5	Govt. Institution/Govt. Offices	Rs. 100/tap/month	Rs. 25.00/tap/month ✓

CIRCULAR

No.PPH/A-27/06-07

Dated Pasighat the

It is hereby brought to the notice of all the departments under East Siang District Pasighat that as per the cabinet approval of 30/5/2006, the existing rate of water charges stands revised w.e.f. 1/06/2006. The recovery of water charges from the occupants of the Govt. Quarters are required to be made as per revised rate as given below :

- | | |
|----------------------|------------------|
| 1. Type I/B, Barrack | = Rs.50.00 P.M. |
| 2. Type II | = Rs.75.00 P.M. |
| 3. Type III | = Rs.100.00 P.M. |
| 4. Type IV | = Rs.125.00 P.M. |
| 5. Type V | = Rs.150.00 P.M. |
| 6. Type VI | = Rs.175.00 P.M. |

All the Heads of Department are therefore requested to ensure recovery of water Charges from the monthly salary bills of officers/staffs occupying Govt. quarters are made regularly in accordance with the above rates. The departments not realizing water charges till date are to realize all the arrear water charges from the officers/staffs at old rate upto 30/5/06 and at revised rates thereafter

Further all the heads of department are also requested to furnish monthly water charges recovery statement alongwith Treasury challan to this office regularly for office record and for onwards submission of the correct revenue figure to the higher authority.

The recovery of water charge may be deposited to the head of account "0215 Water Supply".

MEMORANDUM OF UNDERSTANDING

This Agreement is made at Pasighat on this 20TH Day of March 2017 between Pasighat Municipal Council, having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Authority") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc., of the first part of agreement.

AND

PUBLIC WORKS DEPARTMENT having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Agency") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc. of the second part of agreement.

Hereafter referred to collectively as 'Parties;

WHEREAS, Ministry of Urban Development ("MoUD") has launched Smart Cities Mission ("Mission") and shortlisted Pasighat City under Round III of smart cities challenge as potential smart city and Pasighat Municipal Council has prepared a Smart City Proposal ("SCP") for Round III of Smart Cities Challenge.

AND WHEREAS, in pursuance of MoUD guidelines on Smart City the Authority is mandated to incorporate a Special Purpose Vehicle ("SPV") for planning, designing, financing, implementing, operating and maintenance of Smart City Projects.

AND WHEREAS, the Authority will act as nodal organization for coordination on all matters relating to SCP and its implementation till formation of SPV for Pasighat Smart City.

AND WHEREAS, the Parties have had discussions on Pasighat City SCP including proposals on Area Based Development and Pan City solutions and have reached at an understanding on the following rules and responsibilities pertaining to smart city proposal implementation:

1. **OBJECTIVE OF MEMORANDUM OF UNDERSTANDING** - The objective of this Memorandum of Understanding (MOU) is to define areas of coordination and collaboration between the Authority and the Agency for planning, designing, financing, implementing, operating and maintenance of upcoming Smart City projects in Pasighat City under Smart City Mission.

2. **AREA OF COORDINATION AND COLLABORATION** - The areas of coordination and collaboration between the Authority and the Agency will be as following:

2.1 Parties will coordinate in areas related to planning, design, implementating, operating and maintenance as well as monitoring and coordination for Area Based Development as per SCP.

2.2 The Agency will provide necessary support to the Authority for undertaking project implementation for Area Based Development and Pan City proposals as per SCP.

Executive Engineer
Pasighat PWD (A.P.)
Pasighat

Municipal Executive Officer
Pasighat Municipal Council
Arunachal Pradesh.

2.3 The Agency will endeavor to prioritize its development projects in line with SCP and to converge various policies, schemes and budgets accordingly.

2.4 The Agency will fast track any applicable approvals, licenses and permits for implementation of smart city projects.

2.5. Parties will consult each other and exchange necessary information for coordination and collaboration.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as on the day and year first above written.

Hereafter referred to collectively as 'Parties;

WHEREAS, Ministry of Urban Development ("MoUD") has launched Smart Cities Mission ("Mission") and shortlisted Pasighat City under Round III of smart cities challenge as potential smart city and Pasighat Municipal Council has prepared a Smart City Proposal ("SCP") for Round III of Smart Cities Challenge.

AND WHEREAS, in pursuance of MoUD guidelines on Smart City the Authority is mandated to incorporate a Special Purpose Vehicle ("SPV") for planning, designing, financing, implementing, operating and maintenance of Smart City Projects.

AND WHEREAS, the Authority will act as nodal organization for coordination on all matters relating to SCP and its implementation till formation of SPV for Pasighat Smart City.

AND WHEREAS, the Parties have had discussions on Pasighat City SCP including proposals on Area Based Development and Pan City solutions and have reached at an understanding on the following rules and responsibilities pertaining to smart city proposal implementation:

1. **OBJECTIVE OF MEMORANDUM OF UNDERSTANDING** - The objective of this Memorandum of Understanding (MOU) is to define areas of coordination and collaboration between the Authority and the Agency for planning, designing, financing, implementing, operating and maintenance of upcoming Smart City projects in Pasighat City under Smart City Mission.

2. **AREA OF COORDINATION AND COLLABORATION** - The areas of coordination and collaboration between the Authority and the Agency will be as following:

2.1 Parties will coordinate in areas related to planning, design, implementating, operating and maintenance as well as monitoring and coordination for Area Based Development as per SCP.

2.2 The Agency will provide necessary support to the Authority for undertaking project implementation for Area Based Development and Pan City proposals as per SCP.

Municipal Executive Officer
Pasighat Municipal Council
Arunachal Pradesh.

District Planning Officer
East Siang District
Pasighat

2.3 The Agency will endeavor to prioritize its development projects in line with SCP and to converge various policies, schemes and budgets accordingly.

2.4 The Agency will fast track any applicable approvals, licenses and permits for implementation of smart city projects.

2.5. Parties will consult each other and exchange necessary information for coordination and collaboration.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

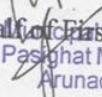

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as on the day and year first above written.

J.D.H.S (T&R) Pasighat having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Agency") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc. of the second part of agreement.

Hereafter referred to collectively as 'Parties;

WHEREAS, Ministry of Urban Development ("MoUD") has launched Smart Cities Mission ("Mission") and shortlisted Pasighat City under Round III of smart cities challenge as potential smart city and Pasighat Municipal Council has prepared a Smart City Proposal ("SCP") for Round III of Smart Cities Challenge.

AND WHEREAS, in pursuance of MoUD guidelines on Smart City the Authority is mandated to incorporate a Special Purpose Vehicle ("SPV") for planning, designing, financing, implementing, operating and maintenance of Smart City Projects.

AND WHEREAS, the Authority will act as nodal organization for coordination on all matters relating to SCP and its implementation till formation of SPV for Pasighat Smart City.

AND WHEREAS, the Parties have had discussions on Pasighat City SCP including proposals on Area Based Development and Pan City solutions and have reached at an understanding on the following rules and responsibilities pertaining to smart city proposal implementation:

1. **OBJECTIVE OF MEMORANDUM OF UNDERSTANDING** - The objective of this Memorandum of Understanding (MOU) is to define areas of coordination and collaboration between the Authority and the Agency for planning, designing, financing, implementing, operating and maintenance of upcoming Smart City projects in Pasighat City under Smart City Mission.

2. **AREA OF COORDINATION AND COLLABORATION** - The areas of coordination and collaboration between the Authority and the Agency will be as following:

2.1 Parties will coordinate in areas related to planning, design, implementating, operating and maintenance as well as monitoring and coordination for Area Based Development as per SCP.

2.2 The Agency will provide necessary support to the Authority for undertaking project implementation for Area Based Development and Pan City proposals as per SCP.

Municipal Executive Officer
Pasighat Municipal Council
Arunachal Pradesh.

Joint Director of Health Service (T&R)
Pasighat

2.3 The Agency will endeavor to prioritize its development projects in line with SCP and to converge various policies, schemes and budgets accordingly.

2.4 The Agency will fast track any applicable approvals, licenses and permits for implementation of smart city projects.

2.5 Parties will consult each other and exchange necessary information for coordination and collaboration.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as on the day and year first above written.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as on the day and year first above written.

MEMORANDUM OF UNDERSTANDING

This Agreement is made at Pasighat on this 24th Day of March 2017 between Pasighat Municipal Council, having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Authority") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc., of the first part of agreement.

AND

DISTRICT LAND REVENUE, SETTLEMENTS OFFICE having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Agency") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc. of the second part of agreement.

Hereafter referred to collectively as 'Parties;

WHEREAS, Ministry of Urban Development ("MoUD") has launched Smart Cities Mission ("Mission") and shortlisted Pasighat City under Round III of smart cities challenge as potential smart city and Pasighat Municipal Council has prepared a Smart City Proposal ("SCP") for Round III of Smart Cities Challenge.

AND WHEREAS, in pursuance of MoUD guidelines on Smart City the Authority is mandated to incorporate a Special Purpose Vehicle ("SPV") for planning, designing, financing, implementing, operating and maintenance of Smart City Projects.

AND WHEREAS, the Authority will act as nodal organization for coordination on all matters relating to SCP and its implementation till formation of SPV for Pasighat Smart City.

AND WHEREAS, the Parties have had discussions on Pasighat City SCP including proposals on Area Based Development and Pan City solutions and have reached at an understanding on the following rules and responsibilities pertaining to smart city proposal implementation:

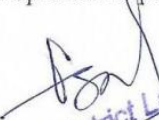

1. **OBJECTIVE OF MEMORANDUM OF UNDERSTANDING** - The objective of this Memorandum of Understanding (MOU) is to define areas of coordination and collaboration between the Authority and the Agency for planning, designing, financing, implementing, operating and maintenance of upcoming Smart City projects in Pasighat City under Smart City Mission.

2. **AREA OF COORDINATION AND COLLABORATION** - The areas of coordination and collaboration between the Authority and the Agency will be as following:

2.1 Parties will coordinate in areas related to planning, design, implementating, operating and maintenance as well as monitoring and coordination for Area Based Development as per SCP.

2.2 The Agency will provide necessary support to the Authority for undertaking project implementation for Area Based Development and Pan City proposals as per SCP.

Municipal Executive Officer

2.3 The Agency will endeavor to prioritize its development projects in line with SCP and to converge various policies, schemes and budgets accordingly.

2.4 The Agency will fast track any applicable approvals, licenses and permits for implementation of smart city projects.

2.5. Parties will consult each other and exchange necessary information for coordination and collaboration.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

Dated Pasighat the 24th March 2017

To,

**The Municipal Executive Officer
Pasighat Municipal Council
East Siang District, Pasighat
Arunachal Pradesh**

Sub: Smart City Project at Pasighat and status of land thereof.

Sir,

As Pasighat is a contender for Smart City Project being sponsored by the Ministry of Urban Development, Government of India, this office conveys its optimum support to the project in terms of land availability in Area Based Development projects in the township. Further, it is to apprise that the department of Land Management is concerned with the land revenue/ premium of allotted land. The utilization and revenue from the assets created therein shall solely be the prerogative of the developers/ Smart City SPV, Pasighat. This department has no objections on Redevelopment and Retrofitting under ABD in Smart City Projects.

AND WHEREAS, the Authority will act as nodal organization for coordination on all matters relating to SCP and its implementation till formation of SPV for Pasighat Smart City.

AND WHEREAS, the Parties have had discussions on Pasighat City SCP including proposals on Area Based Development and Pan City solutions and have reached at an understanding on the following rules and responsibilities pertaining to smart city proposal implementation:

1. **OBJECTIVE OF MEMORANDUM OF UNDERSTANDING** - The objective of this Memorandum of Understanding (MOU) is to define areas of coordination and collaboration between the Authority and the Agency for planning, designing, financing, implementing, operating and maintenance of upcoming Smart City projects in Pasighat City under Smart City Mission.

2. **AREA OF COORDINATION AND COLLABORATION** - The areas of coordination and collaboration between the Authority and the Agency will be as following:

2.1 Parties will coordinate in areas related to planning, design, implementating, operating and maintenance as well as monitoring and coordination for Area Based Development as per SCP.

2.2 The Agency will provide necessary support to the Authority for undertaking project implementation for Area Based Development and Pan City proposals as per SCP.

Municipal Executive Officer
Pasighat Municipal Council
Arunachal Pradesh.

Dy. Directorate Agriculture
East Siang

2.3 The Agency will endeavor to prioritize its development projects in line with SCP and to converge various policies, schemes and budgets accordingly.

2.4 The Agency will fast track any applicable approvals, licenses and permits for implementation of smart city projects.

2.5. Parties will consult each other and exchange necessary information for coordination and collaboration.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

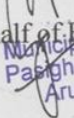

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as on the day and year first above written.

This Agreement is made at Pasighat on this 24th Day of March 2017 between Pasighat Municipal Council, having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Authority") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc., of the first part of agreement.

AND

DISTRICT FOOD AND CIVIL SUPPLIES OFFICER having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Agency") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc. of the second part of agreement.

Hereafter referred to collectively as 'Parties;

WHEREAS, Ministry of Urban Development ("MoUD") has launched Smart Cities Mission ("Mission") and shortlisted Pasighat City under Round III of smart cities challenge as potential smart city and Pasighat Municipal Council has prepared a Smart City Proposal ("SCP") for Round III of Smart Cities Challenge.

AND WHEREAS, in pursuance of MoUD guidelines on Smart City the Authority is mandated to incorporate a Special Purpose Vehicle ("SPV") for planning, designing, financing, implementing, operating and maintenance of Smart City Projects.

AND WHEREAS, the Authority will act as nodal organization for coordination on all matters relating to SCP and its implementation till formation of SPV for Pasighat Smart City.

AND WHEREAS, the Parties have had discussions on Pasighat City SCP including proposals on Area Based Development and Pan City solutions and have reached at an understanding on the following rules and responsibilities pertaining to smart city proposal implementation:

1. **OBJECTIVE OF MEMORANDUM OF UNDERSTANDING** - The objective of this Memorandum of Understanding (MOU) is to define areas of coordination and collaboration between the Authority and the Agency for planning, designing, financing, implementing, operating and maintenance of upcoming Smart City projects in Pasighat City under Smart City Mission.

2. **AREA OF COORDINATION AND COLLABORATION** - The areas of coordination and collaboration between the Authority and the Agency will be as following:

2.1 Parties will coordinate in areas related to planning, design, implementating, operating and maintenance as well as monitoring and coordination for Area Based Development as per SCP.

2.2 The Agency will provide necessary support to the Authority for undertaking project implementation for Area Based Development and Pan City proposals as per SCP.

Municipal Executive Officer
Pasighat Municipal Council
Arunachal Pradesh.

District Food & Civil Supplies Officer
East Siang District
Pasighat

2.3 The Agency will endeavor to prioritize its development projects in line with SCP and to converge various policies, schemes and budgets accordingly.

2.4 The Agency will fast track any applicable approvals, licenses and permits for implementation of smart city projects.

2.5 Parties will consult each other and exchange necessary information for coordination and collaboration.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

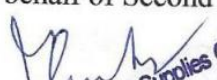

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as on the day and year first above written.

MEMORANDUM OF UNDERSTANDING

This Agreement is made at Pasighat on this 21ST Day of March 2017 between Pasighat Municipal Council, having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Authority") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc., of the first part of agreement.

AND

ARUNACHAL PRADESH RURAL BANK having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Agency") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc. of the second part of agreement.

Hereafter referred to collectively as 'Parties;

WHEREAS, Ministry of Urban Development ("MoUD") has launched Smart Cities Mission ("Mission") and shortlisted Pasighat City under Round III of smart cities challenge as potential smart city and Pasighat Municipal Council has prepared a Smart City Proposal ("SCP") for Round III of Smart Cities Challenge.

AND WHEREAS, in pursuance of MoUD guidelines on Smart City the Authority is mandated to incorporate a Special Purpose Vehicle ("SPV") for planning, designing, financing, implementing, operating and maintenance of Smart City Projects.

AND WHEREAS, the Authority will act as nodal organization for coordination on all matters relating to SCP and its implementation till formation of SPV for Pasighat Smart City.

AND WHEREAS, the Parties have had discussions on Pasighat City SCP including proposals on Area Based Development and Pan City solutions and have reached at an understanding on the following rules and responsibilities pertaining to smart city proposal implementation:

1. **OBJECTIVE OF MEMORANDUM OF UNDERSTANDING** - The objective of this Memorandum of Understanding (MOU) is to define areas of coordination and collaboration between the Authority and the Agency for planning, designing, financing, implementing, operating and maintenance of upcoming Smart City projects in Pasighat City under Smart City Mission.

2. **AREA OF COORDINATION AND COLLABORATION** - The areas of coordination and collaboration between the Authority and the Agency will be as following:

2.1 Parties will coordinate in areas related to planning, design, implementing, operating and maintenance as well as monitoring and coordination for Area Based Development as per SCP.

2.2 The Agency will provide necessary support to the Authority for undertaking project implementation for Area Based Development and Pan City proposals as per SCP.

2.3 The Agency will endeavor to prioritize its development projects in line with SCP and to converge various policies, schemes and budgets accordingly.

2.4 The Agency will fast track any applicable approvals, licenses and permits for implementation of smart city projects.

2.5. Parties will consult each other and exchange necessary information for coordination and collaboration.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as on the day and year first above written.

MEMORANDUM OF UNDERSTANDING

This Agreement is made at Pasighat on this 21ST Day of March 2017 between Pasighat Municipal Council, having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Authority") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc., of the first part of agreement.

AND

AXIS BANK LTD - PASIGHAT having its office at Pasighat, East Siang District, Arunachal Pradesh (herein after referred to as the "Agency") which expression shall, where the context so admits, include its Assigns, Executors, Legal Representatives, Administrators etc. of the second part of agreement.

Hereafter referred to collectively as 'Parties;

WHEREAS, Ministry of Urban Development ("MoUD") has launched Smart Cities Mission ("Mission") and shortlisted Pasighat City under Round III of smart cities challenge as potential smart city and Pasighat Municipal Council has prepared a Smart City Proposal ("SCP") for Round III of Smart Cities Challenge.

AND WHEREAS, in pursuance of MoUD guidelines on Smart City the Authority is mandated to incorporate a Special Purpose Vehicle ("SPV") for planning, designing, financing, implementing, operating and maintenance of Smart City Projects.

AND WHEREAS, the Authority will act as nodal organization for coordination on all matters relating to SCP and its implementation till formation of SPV for Pasighat Smart City.

AND WHEREAS, the Parties have had discussions on Pasighat City SCP including proposals on Area Based Development and Pan City solutions and have reached at an understanding on the following rules and responsibilities pertaining to smart city proposal implementation:

1. **OBJECTIVE OF MEMORANDUM OF UNDERSTANDING** - The objective of this Memorandum of Understanding (MOU) is to define areas of coordination and collaboration between the Authority and the Agency for planning, designing, financing, implementing, operating and maintenance of upcoming Smart City projects in Pasighat City under Smart City Mission.

2. **AREA OF COORDINATION AND COLLABORATION** - The areas of coordination and collaboration between the Authority and the Agency will be as following:

2.1 Parties will coordinate in areas related to planning, design, implementating, operating and maintenance as well as monitoring and coordination for Area Based Development as per SCP.

2.2 The Agency will provide necessary support to the Authority for undertaking project implementation for Area Based Development and Pan City proposals as per SCP.

Municipal Executive Officer
Pasighat Municipal Council
Arunachal Pradesh.

2.3 The Agency will endeavor to prioritize its development projects in line with SCP and to converge various policies, schemes and budgets accordingly.

2.4 The Agency will fast track any applicable approvals, licenses and permits for implementation of smart city projects.

2.5. Parties will consult each other and exchange necessary information for coordination and collaboration.

3. NON-EXCLUSIVITY – The relationship of the parties under this MoU shall be non-exclusive and both parties, including their affiliates, subsidiaries and divisions are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement related to Area Based Development under Smart City Proposal, the authority may limit the right of the agency to collaborate with others on that subject.

4. TERMS AND TERMINATION – This MoU, unless extended by mutual written agreement of the parties, shall lapse 5 (five) years after the effective date specified in the opening paragraph. This MoU may be amended, extended or terminated by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party.

5. RELATIONSHIP – Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

6. ASSIGNMENT – Neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party unless otherwise defined in this MoU or agreed in written by both Parties.

7. COSTS OF THE MOU – Each Party shall bear the respective costs of carrying out the obligation under this MoU.

8. SIGNED IN DUPLICATE – This MoU is executed in duplicate with each copy being an official version of the agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as on the day and year first above written.

Dear All,

I am glad to inform that Alliance Air has in principle agreed to operate one ATR 42 between Ghy-Pasighat. This development is a consequence of meeting of Shri Staya Gopal Sir and the undersigned with Mr Lohani, CMD Indian Airlines today.

In the meanwhile, in pursuance to my meeting with reps of DGCA and BCAS yesterday in presence of Shri Ankur Garg, PS to HM, Civil Aviation, BCAS has send the pro forma which is attached for necessary action.

We may all require prompt follow up to cash on this development.

With warm regards

Sonam

Sub: **Visit of Hon'ble Minister for Railways,**
 Shri Suresh Prabhakar Prabh

Respected Sir,

Shri Suresh Prabhakar Prabh, Hon'ble Minister for Railways would be visiting Arunachal Pradesh on 22-01-2017 to 23-01-2017 in connection with commencement of Final Location Survey of New BG Railway Line between Misamis (Bralakpong)-Tenga-Tawang (375 Km), New BG Railway Line between North Loknampur-Game (Along-Siapathar) (249km) and New BG Railway Line between Pasighat - Tezu - Rupal (227 Km). The time for the function is tentatively fixed at 11:00 hrs. at Pasighat.

During the visit, Hon'ble MR is also likely to meet the Hon'ble Members of Parliament, Members of the Legislative Assembly and other Public Representatives to apprise them of the development plans of the Railways in North Eastern region and discuss regarding aspirations of the people of this area and their expectations from Railways.

I, on behalf of Ministry for Railways, would request you to kindly spare your valuable time for ceremonial commencement of the above works along with Hon'ble Minister for Railways. The detailed programme and other details would be advised in due course.

With kind regards,

Yours sincerely,

(H.K. Jaggi)
 General Manager

OFFICE OF THE DISTRICT LAND REVENUE AND SETTLEMENT
OFFICER
EAST SIANG DISTRICT: PASIGHAT
ARUNACHAL PRADESH

No.ESD/LM/PMC-01/2013-14

Dated Pasighat the 24th March 2017

To,

The Municipal Executive Officer
Pasighat Municipal Council
East Siang District, Pasighat
Arunachal Pradesh

Sub: Smart City Project at Pasighat and status of land thereof.

Sir,

As Pasighat is a contender for Smart City Project being sponsored by the Ministry of Urban Development, Government of India, this office conveys its optimum support to the project in terms of land availability in Area Based Development projects in the township. Further, it is to apprise that the department of Land Management is concerned with the land revenue/ premium of allotted land. The utilization and revenue from the assets created therein shall solely be the prerogative of the developers/ Smart City SPV, Pasighat. This department has no objections on Redevelopment and Retrofitting under ABD in Smart City Projects.
