How Many Smart Cities in Each State/UT?

The total number of 100 smart cities have been distributed among the States and UTs on the basis of an equitable criteria. The formula gives equal weightage (50:50) to urban population of the State/UT and the number of statutory towns in the State/UT. Based on this formula, each State/UT will, therefore, have a certain number of potential smart cities, with each State/UT having at least one. This distribution is given below. The number of potential Smart Cities from each State/UT will be capped at the indicated number. *(This distribution formula has also been used for allocation of funds under Atal Mission for Rejuvenation and Urban Transformation - AMRUT)*.

The distribution of smart cities will be reviewed after two years of the implementation of the Mission. Based on an assessment of the performance of States/ULBs in the Challenge, some re-allocation of the remaining potential smart cities among States may be required to be done by MoUD.

Number of cities allocated to States based on urban population and number of statutory towns

State/ UT	No. of cities
A & N Islands	1
Andhra Pradesh	3
Arunachal Pradesh	1
Assam	1
Bihar	3
Chandigarh	1
Chhattisgarh	2
